Rajiv Kumar	1	0
Smita Agrawal	1	0

21. Company's policy relating to directors' appointment, payment of remuneration and discharge of their duties

The provisions of Section 178 (1) of the Companies Act, 2013 relating to constitution of nomination and remuneration committee are not applicable to the Company and hence the Company has not devised any policy relating to appointment of directors, payment of managerial remuneration, directors' qualifications, positive attributes, independence of directors and other related matters as provided under Section 178 (3) of the Companies Act, 2013.

22. Particulars of loans, guarantees or investments under Section 186 of the Companies Act, 2013

The Company has not given any loan, guarantee or made any investment which exceeds the limits prescribed under Section 186 of the Companies Act, 2013.

23. Details in respect of fraud reported by the auditor under Section 143 (12) of the Companies Act, 2013

There was no fraud reported in the Company during the financial year ended March 31, 2024.

24. Statement on declaration given by independent directors' u/s 149(6) of Companies Act, 2013

As per the provisions of the Companies Act, 2013 and the relevant rules, there is no requirement for the appointment of independent directors by the Company and hence this clause does not apply for the financial year under review.

25. Particulars of contracts or arrangements with related parties

The details of the contracts entered into with related parties are provided in Annexure B to this report. Annexure B forms part of this report.

26. Risk management policy

The Company has a risk management policy wherein it has identified the elements of risk to the business of the Company or which may threaten the existence of the Company and also identified the ways to reduce the risks.

27. Secretarial standards

The directors have devised proper systems to ensure compliance with the provisions of all applicable secretarial standards and that such systems are adequate and operating effectively.

28. Directors' responsibility statement

The directors hereby confirm that they have:

a) In the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;

b) The directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit and loss of the Company for the year;

c) The directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

d) The directors have prepared the annual accounts on a going concern basis; and

e) The directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

29. Disclosure under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Your Company has always believed in providing a safe and harassment free working environment. A policy on prevention of sexual harassment at workplace has been in place. The policy aims at prevention of harassment of employees and lays down the guidelines for identification, reporting and prevention of undesired behaviour. A ten-member Internal Complaints Committee (ICC) was set up from the senior management with women employees constituting majority. The ICC is responsible for redressal of complaints related to sexual harassment and follows the guidelines provided in the policy.

During this year, the ICC has received 7 complaints pertaining to sexual harassment.

30. Details of difference between amount of the valuation done at the time of one-time settlement and the valuation done while taking loan from the banks or financial institutions as per Rule 8(5)(xii) of the Companies (Accounts) Rules, 2014

There has been no instance of a one-time settlement or a loan from a bank or a financial institution and therefore, there is no disclosure or reporting requirement with respect to valuation done at the time of difference between amount of the valuation done at the time of one-time settlement and the valuation done while taking loan from the banks or financial institutions.

31. Details of application made or any proceeding pending under the Insolvency and Bankruptcy Code, 2016 (31 of 2016) during the year along with their status as at the end of the financial year

No application has been made and there are no pending proceedings under the Insolvency and Bankruptcy Code, 2016 (31 of 2016).

32. Acknowledgement

Your directors would like to place on record, their appreciation to customers, stakeholders, consultants, vendors, and all other governmental and statutory agencies for their cooperation and invaluable support. Your directors would also thank the employees for their contribution to the company's performance and growth.

ANNEXURE – A

Report on the Company's Corporate Social Responsibility

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILTY (CSR) ACTIVITIES

(Pursuant to Section 135 of the Companies Act, 2013 and Rule 8 of the Companies (Corporate Social Responsibility Policy) Rules, 2014)

1. Brief outline of the CSR policy of the Company.

Microsoft's CSR efforts in India are guided by its mission to empower every person and every organization on the planet to achieve more. As a global leader in technology, Microsoft is committed towards making our planet a better place. We apply the power of technology to ensure corporate responsibility, transform lives and spark economic opportunity for all.

Microsoft is part of a diverse group of stakeholders that includes businesses, NGOs/nonprofits, policy makers and community leaders who are acting on this issue. Together, we're working to ensure that everyone has the skills and resources they need to participate in the world we're building, and that our impact on individuals and communities gets translated into long-term, systemic change. Because when everyone has the chance to reach his or her full potential, we all prosper.

The purpose of Microsoft CSR activities is to bring the benefits of technology to drive sustainable social impact and enable economic opportunity for all. We achieve that by building capacity, driving action and influencing policy for our programmatic priorities that continue being the following:

- Digital skills for employability: Equip all youth to befuture ready and provide career skills so that everyoneissuccessful in the digital economy.

- Technology for social impact: Bring the power of technology to every nonprofit and humanitarian organization to accelerate social impact.

- Humanitarian action: Support persons and communities affected by humanitarian disasters through relief and rehabilitation initiatives.

- Employee engagement: Empower employees to make an impact through personal giving and contributing to the causes Microsoft cares about.

- Education & skilling leading to sustaining livelihoods: Enable education and skilling leading to better employment opportunities for the youth.

- Inclusion and empowerment focus on accessibility: Empower women, disabled, senior citizens, and other marginalized segments to include them in mainstream.

- Environment & sustainability: Promote & adopt sustainable causes that help with enabling healthier planet.

CSR Committee may include any other themes on CSR that are within the purview of Section 135 of the Companies Act, 2013 read with Schedule VII thereto.

The Company ensures that every programme has:

a) Clearly defined objectives consistent with the policy;

b) A system for monitoring actual spending by the grantees;

c) Impact assessment, wherever required;

d) A reporting framework/ system.

All CSR programmes are closely monitored through field visits, comprehensive documentation, and regular interaction with beneficiary communities.

The CSR focus area at MIRPL is aligned with Microsoft's Citizenship Charter which include promoting education and digital inclusion, skilling, employability and entrepreneurship, women empowerment, and accessibility. The guidelines we use to evaluate initiatives in CSR are as follows:

a) Projects should result in the creation of long-term assets for the community in India.

b) The assets created should be sustainable and in a defined period of time become self-sustaining.

c) Projects should cater to the overall improvement of the community. These could include health, education and sanitation.

d) Each project should have clearly defined metrics to determine impact.

e) Projects that run over several years should have clearly measurable milestones.

2. Composition of CSR committee:

Sl. No.	Name of Director	Designation / Nature of Directorship	Number of meetings of CSR Committee held during the year	Number of meetings of CSR Committee attended during the year
1	Benjamin Owen Orndorff	Director	1	1
2	Keith Ranger Dolliver	Director	1	1

INDEPENDENT AUDITOR’S REPORT

To The Members of Microsoft India (R&D) Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Microsoft India (R&D) Private Limited (“the Company”), which comprise the Balance Sheet as at 31 March 2024, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (“SAs”) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor’s Report Thereon

- The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Directors’ report but does not include financial statements and our auditor’s report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence thatissufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud ishigher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in

(i) planning the scope of our audit work and in evaluating the results of our work; and

(ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

In accordance with the Scheme of Amalgamation referred to in Note 41 to the financial statements, the comparative amounts presented have been restated to include the financial information of transferor company which reflect total assets of Rs. 3,164.76 million as at 31 March 2023, total revenue of Rs. 6,963.86 million, total net profit after tax of Rs. 418.16 million and total comprehensive income of Rs. 400.90 million for the year ended 31 March 2023. The said financial information of the transferor company has been audited by other auditors, whose reports have been furnished to us and have been relied upon by us. We have audited the adjustments made by the management consequent to the merger of the transferor Company with the Company to arrive at restated amounts for the year ended 31 March 2023. Our opinion on the financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except that the backup of the books of account maintained in electronic mode has been kept on monthly basis for the period from 1 April 2023 to 27 November 2023, instead of on a daily basis, in a server physically located in India (refer Note 40(xvi)(B) to the financial statements) and not complying with the requirement of audit trail as stated in (i)(vi) below.

c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.

f) The modifications relating to the maintenance of accounts and other matters connected therewith, are as stated in paragraph (b) above.

g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”. Our report expresses an unmodified opinion on the adequacy and operatingeffectivenessof the Company’s internal financial controls with reference to financial statements.

h) With respect to the othermatters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended,

In our opinion and to the best of our information and according to the explanations given to us, the Company being a private company, section 197 of the Act related to the managerial remuneration is not applicable.

i) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 29 to the financial statements;

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 40(xii) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the note 40(xii) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities, with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.

As stated in note 15.1 to the financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. Such dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination, which included test checks, the Company has used accounting softwares for maintaining its books of account for the year ended 31 March 2024, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that,

i. In respect of an accounting software which is operated by a third-party software service provider, for maintaining payroll records, in the absence of an independent auditor's System and Organisation Controls report covering the audit trail requirement, we are unable to comment whether audit trail feature of the said software was enabled and operated throughout the year for all the relevant transactions recorded in this software or whether there were any instances of the audit trail feature been tampered with.

Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with, in respect of accounting software for the period for which the audit trail feature was enabled and operating.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1 April 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended 31 March 2024.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE A TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 (g) under ‘Report on Other Legal and Regulatory Requirements’ Section of our report of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-Section 3 of Section143 of theCompanies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of Microsoft India (R&D) Private Limited (“the Company”) as at 31 March 2024 in conjunction with our audit of the financial statements of the Company for the year ended onthat date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to financial statements based on “the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial control with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ Section of our report of even date)

In terms of the information andexplanations soughtby us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) In respect to Company’s Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, capital work-in-progress and relevant details of right-of-use assets.

(B) The Company has maintained proper records showingfull particulars of intangible assets.

(b) The Company has a program of verification of Property, Plant and Equipment, capital work-in-progress and right-of-use assets, so as to cover all the items once every 3 years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) Based on our examination of the registered conveyance deed provided to us, we report that, the title deeds of all the immovable properties, (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in (property, plant and equipment and capital work-in progress) are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued any of its property, plant and equipment (including Right of Use assets) during the year.

(e) No proceedings have been initiated during the year or are pending against the Company as at 31 March 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The Company does not have any inventory and, hence, reporting under clause (ii)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, at any point of time of the year, the Company has not been sanctioned any working capital facility from banks or financial institutions and, hence, reporting under clause (ii)(b) of the Order is not applicable.

(iii) The Company has not made any investments in, provided any guarantee or security, and granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause (iii) of the Order is not applicable.

(iv) According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and, hence, reporting under clause (iv) of the Order is not applicable.

(v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable.

(vi) Having regard to the nature of the Company’s business / activities, reporting under clause (vi) of the Order on cost records is not applicable.

(vii) According to the information and explanations given to us, in respect of statutory dues

(a) Undisputed statutory dues, including Goods and Service tax, Provident Fund, Professional taxes, Income-tax, duty of Custom, cess and other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities though there has been a delay in respect of remittance of Provident Fund dues. We have been informed that the provisions of the Employees’ State Insurance Act, 1948 are not applicable to the Company.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Professional taxes, Income-tax, duty of Custom, cess and other material statutory dues in arrears as at 31 March 2024 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 31 March 2024 on account of disputes are given below:

Name of the Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates (Financial Year)	Amount Involved		Amount paid under protest	Amount Unpaid
	(Also						

	Refer Notes below)			Rs. Millions	Rs. Millions	Rs. Millions
Income-tax Act, 1961	Tax	High Court (HC)	2005-06 to 2009-10	1,584.45	1,137.47	446.98
	Interest			1,218.29	Nil	1,218.29
	Tax	HighCourt(HC)	2010-11	33.71	33.71	Nil
	Interest			15.09	7.83	7.26
	Penalty	CIT (A)	2014-15	510.29	Nil	510.29
	Tax	CIT (A) / ITAT	2016-17 to 2017-18	363.43	Nil	363.43
	Interest			92.07	Nil	92.07
Value Added Tax	Tax	High Court (HC)	2006-07 to 2007-08	7.71	7.71	Nil
Service Tax	Tax	Commissioner of Service Tax	2010-17	22.39	0.72	21.67

Notes:

1. The above does not include Show cause notices (pending formal demand notices) and draft assessment orders received by the Company.

2. The above amounts have been disclosed after adjusting amounts paid under protest and suo-moto adjustments/recoveries made by the Government departments.

3. Refer note 29 of the financial statements.

(viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) (a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause (ix)(a) of the Order is not applicable to the Company.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and, hence, reporting under clause (ix)(c) of the Order is not applicable.

(d) On an overall examination of the financial statements of the Company, funds raised on short term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) The Company did not have any subsidiary or associate or joint venture during the year and hence, reporting under clause (ix)(e) of the Order is not applicable.

(f) The Company has not raised any loans during the year and, hence, reporting on clause (ix)(f) of the Order is not applicable.

(x) (a) The Company has not issued any of its securities (including debt instruments) during the year and, hence, reporting under clause (x)(a) of the Order is not applicable.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) In our opinion, the Company is in compliance with section 188 of the Companies Act for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards. The Company is a private company and, hence, the provisions of section 177 of the Companies Act, 2013 are not applicable to the Company.

(xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto 31 December 2023 for the period under audit.

(xv) In our opinion during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act,1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.

(d) The Group does not have any CIC as part of the group and accordingly reporting under clause (xvi)(d) of the Order is not applicable.

(xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors of the Company during the year.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, (Asset Liability Maturity (ALM) pattern) other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come toour attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating thatCompany is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) There is no unspent CSR amount in respect to other than ongoing projects for theyear requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with provisions of sub-section (5) of section 135 of the said Act. Accordingly, reporting under clause (xx)(a) of the Order is not applicable for the year.

(b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

Disclosure of significant accounting policies [Text Block]

1 CORPORATE INFORMATION

Microsoft India (R&D) Private Limited (“the Company”) was incorporated in India on 15 May 1998 and is engaged in the business of software development, product support services and other support services primarily for Microsoft Ireland Research, Microsoft Ireland Operations Limited, Ireland and its affiliates. Refer Note 23.1.

2 Application of new and revised Ind AS

(i) The Company has applied the following Ind AS pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2023 with effect from April 1, 2023. The effect is described as below:
1. Ind AS 1 – Presentation of Financial Statements – The amendment requires disclosure of material accounting policies instead of significant accounting policies. In the financial statements the disclosure of accounting policies has been accordingly modified. The impact of such modifications to the accounting policies is expected to be insignificant.
2. Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors – The amendment has defined accounting estimate as well as laid down the treatment of accounting estimate to achieve the objective set out by accounting policy. There is no impact of the amendment on the Financial Statements.
3. Ind AS 12 – Income taxes – the definition of deferred tax asset and deferred tax liability is amended to apply initial recognition exception on assets and liabilities that does not give rise to equal taxable and deductible temporary differences. There is no impact of the amendment on the Financial Statements.

3 MATERIAL ACCOUNTING POLICIES

3.1 Basis of Preparation and Presentation

These financial statements are prepared in accordance with the Indian Accounting Standards (IND AS), under the historical cost convention on the accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

(i) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
(ii) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
(iii) Level 3 inputs are unobservable inputs for the asset or liability.

These financial statements are prepared in accordance with the provision of the Companies Act, 2013 ('the Act') to the extent notified. The INDAS are prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use. Also refer Note 2 above.

3.2 Cash and cash equivalents (for purposes of cash flow statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.3 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.4 Property, Plant and Equipment ("PPE")

Land and buildings held for use in the services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any. Freehold land is not depreciated.

Cost of Properties includes import duties and non-refundable taxes, professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Any part or components of Property, Plant and Equipment which are separately identifiable and expected to have a useful life which is different from that of the main assets are capitalised separately, based on the technical assessment of the management.

Cost of modifications that enhance the operating performance or extend the useful life of Property, Plant and Equipment are also capitalised, where there is a certainty of deriving future economic benefits from the use of such assets.

Depreciation:

Depreciation on property, plant and equipment is provided on the basis of the straight line method, pro-rata from the month of capitalization over the period of use of the assets, assessed as below:

Asset category	Useful Lives
Buildings	5 to 15 years
Leasehold improvements	Over the expected lease period
Computer equipment:	
- Computers	In the year of acquisition
- Servers	6 Years
Office equipment:	
- Telecom equipment	3 Years
- Audio Visual equipment	3 Years
- Networking equipment	6 Years
- ITG telephone equipment	5 years
- Other office equipment	5 years
Furniture and fixtures	3 Years
Vehicles	5 years

Individual assets costing Indian Rupee equivalent (computed based on monthly average rates) to USD 1,000 or less are fully depreciated in the year of acquisition.

The estimated useful lives mentioned above are different from the useful lives specified for certain categories of these assets, where applicable, as per the Schedule II of the Companies Act, 2013. The estimated useful lives followed in respect of these assets are based on Management's assessment and technical advise, taking into account factors such as the nature of the assets, the estimated usage pattern of the assets, the operating conditions, past history of replacement, anticipated technological changes and maintenance support etc.

Depreciation is accelerated on property, plant & Equipment, based on their condition, usability etc. as per the technical estimates of the Management, where necessary.

Goodwill is stated at the purchase consideration in excess of the net fair value of identifiable assets, liabilities and contingent liabilities of the acquired entity. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds purchase consideration, the fair value of net assets acquired is considered as goodwill.

Intangible assets are amortized over their estimated useful life on straight line method. Software are amortized over the period of 3 years or over the license period, whichever is less. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

3.5 Revenue recognition

Revenue from Software Development Services, Product Support Services and Other Support Services is recognized on Cost Plus's basis in accordance with the terms of the agreement entered into with the customer/mutual understanding.

Revenue recognised on Cost Plus basis, is recorded considering the net eligible costs incurred/identified towards such revenue contracts, the final acceptance / determination of which is based on the confirmation by the customer. The difference, if any, between the revenue recorded and the amount of revenue finally determined based on confirmation from the customer is adjusted to revenue in the period of such final determination.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Unbilled revenue represents accrual of income relating to services provided but not billed as at the end of the period.

3.6 Foreign currency transactions

Initial recognition:

Foreign currency transactions are accounted at the monthly average exchange rates prevailing in the month in which the transactions occur which approximates the exchange rate prevailing on the date of the transactions.

Measurement of foreign currency monetary items at the balance sheet date:

Foreign currency monetary items of the Company outstanding at the balance sheet date are restated at the rates prevailing as at the Balance Sheet date.

Measurement of Foreign Currency Non-Monetary Items at the Balance Sheet Date:

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Treatment of exchange differences:

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the statement of profit and loss.

3.7 Government grants

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the balance sheet and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognized in profit or loss in the period in which they become receivable.

3.8 Share based payment arrangements

The Company is covered under the employee stock and savings plan of Microsoft Corporation, USA (the ultimate holding company). Under the plan, the employees of the Company may be granted shares and other stock awards of the ultimate holding company, in accordance with the terms and conditions as specified in the plan. The plan is assessed, managed and administered by the ultimate holding company, whose shares have been granted to the employees of the Company. The cost of such grants have been accounted by the Company in accordance with Ind AS 102 and until 31 March 2020, the corresponding increase had been recognised in Other equity as a Capital Contribution, where no payments are required to be made to the parent. Effective 1 April 2020, the Company pursuant to entering an agreement with the ultimate Holding company, receives invoices and the same is remitted to the ultimate Holding Company. Also refer Note 38.

Equity settled share based payments to the employee and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details relating to the determination of the fair value of equity - settled share based transactions are set out in Note 38.

The fair value determined at the grant date of the equity settled share based payments is expensed on a straight line basis over the vesting period, based on the ultimate holding company's estimate of the equity instruments that will eventually vest. At the end of each reporting period the ultimate holding company's revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the capital contribution from parent.

Compensation expense for the employee stock purchase plan (“ESPP”) is measured as the discount the employee is entitled to upon purchase and is recognized in the period of purchase.

3.9 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

3.10 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.
All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets:

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Changes in the carrying amount of FVTOCI monetary financial assets relating to changes in foreign currency rates are recognised in profit or loss. Other changes in the carrying amount of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of ‘Reserve for debt instruments through other comprehensive income’. When the investment is disposed off or is determined to be impaired, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.
Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Investments in equity instruments at FVTOCI:

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the ‘Reserve for equity instruments through other comprehensive income’. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:
- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or

- It is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Dividend on these investments in equity instruments are recognised in the Statement of Profit and Loss when the right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Financial assets at fair value through profit or loss (FVTPL):

Investments in equity instruments are classified as FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Impairment of financial assets:

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of the financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the life-time expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the life-time cash shortfalls that will result if the default occurs within the 12 months after reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measures the loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in risk of default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the date of initial recognition.

For trade receivables or any contractual right to receive cash or other financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

De-recognition of financial assets:

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset’s carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On de-recognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Foreign exchange gains and losses:

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss.

- Changes in carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

- For the purposes of recognising foreign exchange gains or losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in the Statement of Profit and Loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

3.11 Financial liabilities and equity instruments

Classification as a debt or equity:

Debt and equity instruments used by the Company as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or

- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the Companying is provided internally on that basis;

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in the Statement of Profit and Loss.

Financial liabilities subsequently measured at amortised cost:

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Foreign exchange gains and losses:

For financial liabilities that are denominated in a foreign currency and measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on amortised cost of the instruments and are recognised in the Statement of Profit and Loss.

The fair value of the financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured at FVTPL, the foreign exchange component forms part of the fair value gains or losses recognised in the Statement of profit and Loss.

Derecognition of financial liabilities:

The Company derecognises financial liabilities when, and only when, the Company’s obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

3.12 Employee Benefits

Employee benefits include provident fund, superannuation, gratuity and compensated absences.

(a) Defined Benefit Plans

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the Statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

- Net interest expense or income; and
- Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

3.12 Employee Benefits (Cont..)

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees upto the reporting date.

Compensated Absences

The Company accounts for its liability towards compensated absences based on actuarial valuation done as at the Balance Sheet date by an independent actuary using the Projected Unit Credit Method. The liability includes the long term component accounted on a discounted basis and the short term component which is accounted for on an undiscounted basis.

(b) Defined Contribution Plans

Provident Fund

Contributions towards Employees’ Provident Fund are made to the Employees’ Provident Fund Scheme maintained by the Central Government and the Company’s contribution to the fund are recognized as an expense in the year in which the services are rendered by the employees.

National Pension Scheme

The Company contributes a specified percentage of the eligible employees salary to the National Pension Scheme of the Central Government. The Company has no liability for future Pension benefits and the Company's contribution to the Scheme are recognized as an expense in the year in which the services are rendered by the employees.

3.13 Leases

The Company determines if an arrangement is a lease at inception.

Right of Use Assets (ROU) represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of leases do not provide an implicit rate, the Company use the incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The lease ROU asset also includes any lease payments made, estimate of costs to dismantle or restore the underlying asset to the original condition, and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option.

The Company have lease agreements with lease and non-lease components, which are generally accounted for separately. For certain equipment leases, such as vehicles, we account for the lease and non-lease components as a single lease component. Additionally, for certain equipment leases, we apply a portfolio approach to effectively account for the lease ROU assets and liabilities.

3.14 Earnings per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

3.15 Taxation

Current Tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of the management supported by previous experience in respect of such activities and professional advice, as required.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year :

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.16 Impairment of Tangible and Intangible Assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets or cash generating units to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, or whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Derecognition of Intangible assets

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of assets and are recognised in the Statement of Profit and Loss when the asset is derecognised.

3.17 Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal/ constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

Contingent Liability:

Contingent liability is disclosed for (i) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

3.18 Segment Reporting

Operating segments reflect the Company's management structure and the way the financial information is regularly reviewed by the Company's Chief Operating Decision Maker (CODM). The CODM considers the business from both business and product perspective based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / (loss) amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under unallocated revenue / expenses / assets / liabilities.

3.19 Goods and Service tax Input Credit

Goods and Service tax Input Credit is accounted for in the books during the period when the underlying service received is accounted and when there is no uncertainty in availing / utilizing the credits.

3.20 Insurance Claims

Insurance claims are accrued for on the basis of claims admitted / expected to be admitted and to the extent there is no uncertainty in receiving the claims.

3.21 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3.22 Related Party Transactions

Related party transactions are accounted for based on terms and conditions of the agreement / arrangement with the respective related parties. These related party transactions are determined on an arms length basis and are accounted for in the year in which such transactions occur and adjustments if any, to the amounts accounted are recognised in the year of final determination.

There are common costs incurred by the Ultimate Holding Company / Other Group Companies on behalf of various entities in the group including the Company. Similarly, the Ultimate Holding Company / Other Group Companies provide free of cost software or other applications to the Company for rendering the services in their capacity as customer pursuant to the terms and conditions of the services being provided. The cost of such common costs or software/other applications are accounted to the exent debited separately by the said related parties.

3.23 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.24 Subsequent events

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are approved by the Board of Directors in case of a company, and, by the corresponding approving authority in case of any other entity for issue.

Two types of events can be identified:

(a) those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
(b) those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

Adjusting events after the reporting period
An entity shall adjust the amounts recognised in its financial statements to reflect adjusting events after the reporting period.

Non-adjusting events after the reporting period
An entity shall not adjust the amounts recognised in its financial statements to reflect non-adjusting events after the reporting period.

3.25 Business combinations (common control business combinations)

Business combination involving entities that are controlled by the ultimate holding company are accounted for using the pooling of interest method as follows:
- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- The balance of the retained earnings appearing in the standalone financial statements of the transferor is aggregated with the corresponding balance appearing in the standalone financial statements of the transferee or is adjusted against general reserve.
- The identity of the reserve are preserved and the reserves of the transferor becomes the reserves of the transferee.
- The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

4 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if revision affects both current and future periods.

The following are the significant areas of estimation, uncertainty and critical judgements in applying accounting policies:

- Useful lives of Property, plant and equipment (Refer Note 3.4)
- Provision for taxation (Refer Notes 3.15 and 8)
- Provision for contingencies (Refer Note 3.17)
- Provision for Employee benefits (Refer Note 3.12)
- Stock-based compensation forfeiture rates (Refer Note 3.8)

- Fair value of financial assets and financial liabilities (Refer Notes 3.9 and 3.13)
- Lease accounting and reporting (refer Note 3.13)

Determination of functional currency:

Currency of the primary economic environment in which the Company operates (“the functional currency”) is Indian Rupee (INR) in which the company primarily generates and expends cash. Accordingly, the Management has assessed its functional currency to be Indian Rupee (INR).

1 CORPORATE INFORMATION

Microsoft India (R&D) Private Limited (“the Company”) was incorporated in India on 15 May 1998 and is engaged in the business of software development, product support services and other support services primarily for Microsoft Ireland Research, Microsoft Ireland Operations Limited, Ireland and its affiliates. Refer Note 23.1.

Textual information (6)

Statement of Ind AS compliance [Text Block]

2 Application of new and revised Ind AS

Except for the changes below, the Company has consistently applied accounting policies to all periods

(i) The Company has applied the following Ind AS pronouncements pursuant to issuance of the Companies (Indian Accounting Standards) Amendment Rules, 2023 with effect from April 1, 2023. The effect is described as below:
1. Ind AS 1 – Presentation of Financial Statements – The amendment requires disclosure of material accounting policies instead of significant accounting policies. In the financial statements the disclosure of accounting policies has been accordingly modified. The impact of such modifications to the accounting policies is expected to be insignificant.
2. Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors – The amendment has defined accounting estimate as well as laid down the treatment of accounting estimate to achieve the objective set out by accounting policy. There is no impact of the amendment on the Financial Statements.
3. Ind AS 12 – Income taxes – the definition of deferred tax asset and deferred tax liability is amended to apply initial recognition exception on assets and liabilities that does not give rise to equal taxable and deductible temporary differences. There is no impact of the amendment on the Financial Statements.

There is no impact of the amendment on the Financial Statements.

3 MATERIAL ACCOUNTING POLICIES

3.1 Basis of Preparation and Presentation

These financial statements are prepared in accordance with the Indian Accounting Standards (IND AS), under the historical cost convention on the accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

(i) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
(ii) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
(iii) Level 3 inputs are unobservable inputs for the asset or liability.

These financial statements are prepared in accordance with the provision of the Companies Act, 2013 ('the Act') to the extent notified. The INDAS are prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use. Also refer Note 2 above.

3.2 Cash and cash equivalents (for purposes of cash flow statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.3 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3.4 Property, Plant and Equipment ("PPE")

Land and buildings held for use in the services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses, if any. Freehold land is not depreciated.

Cost of Properties includes import duties and non-refundable taxes, professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Any part or components of Property, Plant and Equipment which are separately identifiable and expected to have a useful life which is different from that of the main assets are capitalised separately, based on the technical assessment of the management.

Cost of modifications that enhance the operating performance or extend the useful life of Property, Plant and Equipment are also capitalised, where there is a certainty of deriving future economic benefits from the use of such assets.

Depreciation:

Depreciation on property, plant and equipment is provided on the basis of the straight line method, pro-rata from the month of capitalization over the period of use of the assets, assessed as below:

Asset category	Useful Lives
Buildings	5 to 15 years
Leasehold improvements	Over the expected lease period
Computer equipment:	
- Computers	In the year of acquisition
- Servers	6 Years
Office equipment:	
- Telecom equipment	3 Years
- Audio Visual equipment	3 Years
- Networking equipment	6 Years
- ITG telephone equipment	5 years
- Other office equipment	5 years
Furniture and fixtures	3 Years
Vehicles	5 years

Individual assets costing Indian Rupee equivalent (computed based on monthly average rates) to USD 1,000 or less are fully depreciated in the year of acquisition.

The estimated useful lives mentioned above are different from the useful lives specified for certain categories of these assets, where applicable, as per the Schedule II of the Companies Act, 2013. The estimated useful lives followed in respect of these assets are based on Management's assessment and technical advise, taking into account factors such as the nature of the assets, the estimated usage pattern of the assets, the operating conditions, past history of replacement, anticipated technological changes and maintenance support etc.

Depreciation is accelerated on property, plant & Equipment, based on their condition, usability etc. as per the technical estimates of the Management, where necessary.

Goodwill is stated at the purchase consideration in excess of the net fair value of identifiable assets, liabilities and contingent liabilities of the acquired entity. When the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds purchase consideration, the fair value of net assets acquired is considered as goodwill.

Intangible assets are amortized over their estimated useful life on straight line method. Software are amortized over the period of 3 years or over the license period, whichever is less. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization period is revised to reflect the changed pattern, if any.

3.5 Revenue recognition

Revenue from Software Development Services, Product Support Services and Other Support Services is recognized on Cost Plus's basis in accordance with the terms of the agreement entered into with the customer/mutual understanding.

Revenue recognised on Cost Plus basis, is recorded considering the net eligible costs incurred/identified towards such revenue contracts, the final acceptance / determination of which is based on the confirmation by the customer. The difference, if any, between the revenue recorded and the amount of revenue finally determined based on confirmation from the customer is adjusted to revenue in the period of such final determination.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Unbilled revenue represents accrual of income relating to services provided but not billed as at the end of the period.

3.6 Foreign currency transactions

Initial recognition:

Foreign currency transactions are accounted at the monthly average exchange rates prevailing in the month in which the transactions occur which approximates the exchange rate prevailing on the date of the transactions.

Measurement of foreign currency monetary items at the balance sheet date:

Foreign currency monetary items of the Company outstanding at the balance sheet date are restated at the rates prevailing as at the Balance Sheet date.

Measurement of Foreign Currency Non-Monetary Items at the Balance Sheet Date:

Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Treatment of exchange differences:

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the statement of profit and loss.

3.7 Government grants

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the balance sheet and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognized in profit or loss in the period in which they become receivable.

3.8 Share based payment arrangements

The Company is covered under the employee stock and savings plan of Microsoft Corporation, USA (the ultimate holding company). Under the plan, the employees of the Company may be granted shares and other stock awards of the ultimate holding company, in accordance with the terms and conditions as specified in the plan. The plan is assessed, managed and administered by the ultimate holding company, whose shares have been granted to the employees of the Company. The cost of such grants have been accounted by the Company in accordance with Ind AS 102 and until 31 March 2020, the corresponding increase had been recognised in Other equity as a Capital Contribution, where no payments are required to be made to the parent. Effective 1 April 2020, the Company pursuant to entering an agreement with the ultimate Holding company, receives invoices and the same is remitted to the ultimate Holding Company. Also refer Note 38.

Equity settled share based payments to the employee and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details relating to the determination of the fair value of equity - settled share based transactions are set out in Note 38.

The fair value determined at the grant date of the equity settled share based payments is expensed on a straight line basis over the vesting period, based on the ultimate holding company's estimate of the equity instruments that will eventually vest. At the end of each reporting period the ultimate holding company's revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the capital contribution from parent.

Compensation expense for the employee stock purchase plan ("ESPP") is measured as the discount the employee is entitled to upon purchase and is recognized in the period of purchase.

3.9 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets and financial liabilities at fair value through profit and loss are recognised immediately in the statement of profit and loss.

3.10 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.
All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets:

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and

- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Changes in the carrying amount of FVTOCI monetary financial assets relating to changes in foreign currency rates are recognised in profit or loss. Other changes in the carrying amount of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed off or is determined to be impaired, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

A financial asset, which is not classified in any of the above categories, is subsequently fair valued through profit or loss.

Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.
Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

Investments in equity instruments at FVTOCI:

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:
- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or

- It is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Dividend on these investments in equity instruments are recognised in the Statement of Profit and Loss when the right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Financial assets at fair value through profit or loss (FVTPL):

Investments in equity instruments are classified as FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Impairment of financial assets:

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of the financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the life-time expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the life-time cash shortfalls that will result if the default occurs within the 12 months after reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measures the loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in risk of default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the date of initial recognition.

For trade receivables or any contractual right to receive cash or other financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

De-recognition of financial assets:

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On de-recognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Foreign exchange gains and losses:

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss.

- Changes in carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

- For the purposes of recognising foreign exchange gains or losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in the Statement of Profit and Loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

3.11 Financial liabilities and equity instruments

Classification as a debt or equity:

Debt and equity instruments used by the Company as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or

- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the Companying is provided internally on that basis;

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in the Statement of Profit and Loss.

Financial liabilities subsequently measured at amortised cost:

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Foreign exchange gains and losses:

For financial liabilities that are denominated in a foreign currency and measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on amortised cost of the instruments and are recognised in the Statement of Profit and Loss.

The fair value of the financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured at FVTPL, the foreign exchange component forms part of the fair value gains or losses recognised in the Statement of profit and Loss.

Derecognition of financial liabilities:

The Company derecognises financial liabilities when, and only when, the Company’s obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

3.12 Employee Benefits

Employee benefits include provident fund, superannuation, gratuity and compensated absences.

(a) Defined Benefit Plans

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the Statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

- Net interest expense or income; and

- Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

3.12 Employee Benefits (Cont..)

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees upto the reporting date.

Compensated Absences

The Company accounts for its liability towards compensated absences based on actuarial valuation done as at the Balance Sheet date by an independent actuary using the Projected Unit Credit Method. The liability includes the long term component accounted on a discounted basis and the short term component which is accounted for on an undiscounted basis.

(b) Defined Contribution Plans

Provident Fund

Contributions towards Employees’ Provident Fund are made to the Employees’ Provident Fund Scheme maintained by the Central Government and the Company’s contribution to the fund are recognized as an expense in the year in which the services are rendered by the employees.

National Pension Scheme

The Company contributes a specified percentage of the eligible employees salary to the National Pension Scheme of the Central Government. The Company has no liability for future Pension benefits and the Company's contribution to the Scheme are recognized as an expense in the year in which the services are rendered by the employees.

3.13 Leases

The Company determines if an arrangement is a lease at inception.

Right of Use Assets (ROU) represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of leases do not provide an implicit rate, the Company use the incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The lease ROU asset also includes any lease payments made, estimate of costs to dismantle or restore the underlying asset to the original condition, and excludes lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option.

The Company have lease agreements with lease and non-lease components, which are generally accounted for separately. For certain equipment leases, such as vehicles, we account for the lease and non-lease components as a single lease component. Additionally, for certain equipment leases, we apply a portfolio approach to effectively account for the lease ROU assets and liabilities.

3.14 Earnings per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Dilutive potential equity shares are determined independently for each period presented. The number of equity shares and potentially dilutive equity shares are adjusted for share splits / reverse share splits and bonus shares, as appropriate.

3.15 Taxation

Current Tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

A provision is recognised for those matters for which the tax determination is uncertain but it is considered probable that there will be a future outflow of funds to a tax authority. The provisions are measured at the best estimate of the amount expected to become payable. The assessment is based on the judgement of the management supported by previous experience in respect of such activities and professional advice, as required.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year :

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.16 Impairment of Tangible and Intangible Assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets or cash generating units to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, or whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Derecognition of Intangible assets

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of assets and are recognised in the Statement of Profit and Loss when the asset is derecognised.

3.17 Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal/ constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

Contingent Liability:

Contingent liability is disclosed for (i) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

3.18 Segment Reporting

Operating segments reflect the Company's management structure and the way the financial information is regularly reviewed by the Company's Chief Operating Decision Maker (CODM). The CODM considers the business from both business and product perspective based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / (loss) amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under unallocated revenue / expenses / assets / liabilities.

3.19 Goods and Service tax Input Credit

Goods and Service tax Input Credit is accounted for in the books during the period when the underlying service received is accounted and when there is no uncertainty in availing / utilizing the credits.

3.20 Insurance Claims

Insurance claims are accrued for on the basis of claims admitted / expected to be admitted and to the extent there is no uncertainty in receiving the claims.

3.21 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3.22 Related Party Transactions

Related party transactions are accounted for based on terms and conditions of the agreement / arrangement with the respective related parties. These related party transactions are determined on an arms length basis and are accounted for in the year in which such transactions occur and adjustments if any, to the amounts accounted are recognised in the year of final determination.

There are common costs incurred by the Ultimate Holding Company / Other Group Companies on behalf of various entities in the group including the Company. Similarly, the Ultimate Holding Company / Other Group Companies provide free of cost software or other applications to the Company for rendering the services in their capacity as customer pursuant to the terms and conditions of the services being provided. The cost of such common costs or software/other applications are accounted to the exent debited separately by the said related parties.

3.23 Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.24 Subsequent events

Events after the reporting period are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are approved by the Board of Directors in case of a company, and, by the corresponding approving authority in case of any other entity for issue.

Two types of events can be identified:

(a) those that provide evidence of conditions that existed at the end of the reporting period (adjusting events after the reporting period); and
(b) those that are indicative of conditions that arose after the reporting period (non-adjusting events after the reporting period).

Adjusting events after the reporting period
An entity shall adjust the amounts recognised in its financial statements to reflect adjusting events after the reporting period.

Non-adjusting events after the reporting period
An entity shall not adjust the amounts recognised in its financial statements to reflect non-adjusting events after the reporting period.

3.25 Business combinations (common control business combinations)

Business combination involving entities that are controlled by the ultimate holding company are accounted for using the pooling of interest method as follows:
- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.
- The balance of the retained earnings appearing in the standalone financial statements of the transferor is aggregated with the corresponding balance appearing in the standalone financial statements of the transferee or is adjusted against general reserve.
- The identity of the reserve are preserved and the reserves of the transferor becomes the reserves of the transferee.
- The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.

4 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if revision affects both current and future periods.

The following are the significant areas of estimation, uncertainty and critical judgements in applying accounting policies:

- Useful lives of Property, plant and equipment (Refer Note 3.4)
- Provision for taxation (Refer Notes 3.15 and 8)
- Provision for contingencies (Refer Note 3.17)
- Provision for Employee benefits (Refer Note 3.12)
- Stock-based compensation forfeiture rates (Refer Note 3.8)

- Fair value of financial assets and financial liabilities (Refer Notes 3.9 and 3.13)
- Lease accounting and reporting (refer Note 3.13)

Determination of functional currency:

Currency of the primary economic environment in which the Company operates (“the functional currency”) is Indian Rupee (INR) in which the company primarily generates and expends cash. Accordingly, the Management has assessed its functional currency to be Indian Rupee (INR).

[610300] Notes - Accounting policies, changes in accounting estimates and errors

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2023 to 31/03/2024	01/04/2022 to 31/03/2023
Disclosure of changes in accounting policies, accounting estimates and errors [TextBlock]	Textual information (9) [See below]	
Disclosure of initial application of standards or interpretations [TextBlock]		
Whether initial application of an Ind AS has an effect on the current period or any prior period	No	No
Disclosure of voluntary change in accounting policy [TextBlock]		
Whether there is any voluntary change in accounting policy	No	No
Disclosure of changes in accounting estimates [TextBlock]		
Whether there are changes in acounting estimates during the year	No	No

Textual information (9)

Disclosure of changes in accounting policies, accounting estimates and errors [Text Block]

4 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if revision affects both current and future periods.

The following are the significant areas of estimation, uncertainty and critical judgements in applying accounting policies:

- Useful lives of Property, plant and equipment (Refer Note 3.4)
- Provision for taxation (Refer Notes 3.15 and 8)
- Provision for contingencies (Refer Note 3.17)
- Provision for Employee benefits (Refer Note 3.12)
- Stock-based compensation forfeiture rates (Refer Note 3.8)
- Fair value of financial assets and financial liabilities (Refer Notes 3.9 and 3.13)
- Lease accounting and reporting (refer Note 3.13)

[400600] Notes - Property, plant and equipment

Disclosure of additional information about property plant and equipment [Table] ..(1)

Unless otherwise specified, all monetary values are in Millions of INR

Classes of property, plant and equipment [Axis]	Property, plant and equipment [Member]

At 31 March 2024	0.22	227.43	227.65
Net book value as :			
At 31 March 2023	0.25	227.43	227.68
At 31 March 2024	0	0	0

* Depreciation and Amortisation expense in the Statement of profit and loss for the year excludes an Impairment loss (Refer Note 27) of Rs. 227.43 Millions against goodwill.

Note: 5.2.1 Depreciation and amortisation expense:

Particulars		For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Depreciation of Property, Plant and Equipment		3449.65	4770.39
Amortisation of Other Intangible Assets (Refer Note 5.2)	0.25	0.19	
Amortisation of Right of use asset (Refer Note 28)		3035.43	3475.14
Total		6485.33	8245.72

5.3 Disposals includes Retirement of Property, Plant and Equipment during current year is for Rs. 2,130.65 Millions (Previous Year Rs. 969.32 Millions).

5.4 Gross block as at 31 March 2024 includes Rs. 243.39 Millions (As at 31 March 2023 - Rs. 393.59 Millions) of assets situated at third party locations.

5.5 Gross block of buildings, leasehold improvement, officeequipments and furnitures and fixtures as at 31 March 2024 and as at 31 March 2023 being the estmiated cost of Property, Plant and Equipment by the management, that are being used by Microsoft Global Services Center (India) Private Limited (MGSI) and Microsoft Corporation India Private Limited (MCIPL) fellow subsidiaries, at the facility occupied on lease by MGSI and MCIPL pursuant to the operating lease agreements entered into with it by the Company. Also Refer Note 28.

					Rs. In Millions
Particulars	Leasehold Improvements	Office Equipments	Furnitures and Fixtures	Computer Equipments	Total
MGSI	1,097.20 (913.96)	208.80 (172.06)	107.60 (145.52)	1.10 (3.14)	1,414.70 (1,234.68)
MCIPL	19.39 (4.27)	3.72 (0.80)	1.37 (0.68)	0.02 (0.01)	24.50 (5.76)

* Figures in bracket indicate previous years figures.

5.6 During the previous year, the Company completed an assessment of the useful lives of our server and networking equipment and determined the company should increase its estimated useful life from four years to six years. This change in accounting estimate will be effective beginning 01 July 2022. Based on the carrying amount of the server and networking equipment included in "Property Plant and equipment, net", this change will decrease the depreciation expense by INR 119.06 Millions and thereby decrease in the profit before taxes for the financial year ended 31 March 2023 by INR 17.86 Millions.

5.7 During the previous year, the Company has initiated the process of de-registration with Software Technologies Parks of India ('STPI') for its premises located in Bangalore and Hyderabad. Consequent to the same, in the Previous year, the Company has de-recognised the duty foregone benefit (recorded as part of Property, Plant and Equipment with a gross block value of INR 1,994.86 Mn) whose net book of assets and deferred government grant liability as on 31 March 2023 aggregated to Rs. 154.60 Million, respectively. Such derecognition of the duty foregone benefit asset from PPE is presented in adjustment column to Gross Block and Accumulated Depreciation.

Cash and Cash Equivalents		
Other Current Financial Assets	396.17	829.22
- Security Deposits	15080.18	4059.87
- Other Financial Assets		

Financial Liabilities

		Rs. In Millions
Particulars	As at 31 March 2024	As at 31 March 2023
Measured at amortized cost		
- Lease Liabilities	7941.49	10456.36
- Trade Payables	18156.01	17697.95
- Other Financial Liabilities	5339.93	4190.59

37 Financial risk management

The Company's corporate treasury function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risks (including currency risk), credit risk and liquidity risk. The Company does not uses any derivative instruments to hedge these risks exposures.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

37.1 Market risk

The Company's activities expose it primarily to the financials risk of change in foreign currency exchange rates.

37.2 Foreign Currency Risk Management:

The Company undertakes transactions denominated in foreign currencies and consequently, exposures to exchange rate fluctuation arises. The Company does not enter into trade financial instruments including derivative financial instruments for hedging its foreign currency risk. The appropriateness of the risk policy is reviewed periodically with reference to the approved foreign currency risk management policy followed by the Company.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of each reporting period are as follows :

A. Balances outstanding

Particulars	Currency	Amount as at 31 March 2024	Amount as at 31 March 2023

		Rs. In Millions		Rs. In Millions	
		Amount in Foreign Currency	Rs.	Amount in Foreign Currency	Rs.
Bank Balance - EEFC	USD	0.59	49.07	1.93	158.61
Trade receivables	USD	126.94	10573.29	142.09	11707.18
Other Financial Assets	USD	10.34	861.22	6.23	512.82
Other Current Assets (other than Unbilled Revenue)	USD	0.00	0.00	0.04	3.03
Unbilled Revenue	USD	113.51	9454.19	118.74	9777.62
Other current liabilities	USD	0.00	0.00	0.18	14.89
Trade payables	USD	99.37	8276.50	104.13	8574.69
	EURO	0.00	0.00	0.00	0.00
Other Financial Liabilities	EURO	0.006	0.52	0.01	0.52
	USD	10.54	878.09	23.42	1928.49

Out of the above foreign currency exposures , none of the monetary assets and liabilities are hedged by a derivative instrument or otherwise.

37.3 Foreign Currency sensitivity analysis :

The Company is mainly exposed to the currencies of USD.

The following table details the Company's sensitivity to a 5% increase and decrease in the INR against the relevant foreign currencies. 5% is the rate used in order to determine the sensitivity analysis considering the past trends and expectation of the management for changes in the foreign currency exchange rate. The sensitivity analysis includes the outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates. A positive number below indicates a increase in profit or equity where the INR Strengthens 5% against the relevant currency. For a 5% weakening of the INR against the relevant currency, there would be a comparable impact on the profit or equity and balance below would be negative.

(I) Impact of Foreign Currency	USD		EURO	
Particulars	As at 31 March 2024 Rs. in millions	As at 31 March 2023 Rs. in millions	As at 31 March 2024 Rs. in millions	As at 31 March 2023 Rs. in millions
Impact on Statement of the Profit and loss for the year				
Increase by 5%	589.16	582.06	-0.03	-0.03
Decrease by 5%	-589.16	-582.06	0.03	0.03
Impact on total equity as at the end of the reporting period				
Increase by 5%	589.16	582.06	-0.03	-0.03
Decrease by 5%	-589.16	-582.06	0.03	0.03

Note :

This is mainly attributable to the exposure of receivable and payable outstanding in the above mentioned currencies to the Company at the end of the reporting period.

37.4 Interest Rate Risk Management :

The Company currently does not have any borrowings from the markets that is exposed to variations in the interest rates.

37.5 Liquidity Risk Management :

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The Company manages liquidity risk by maintaining adequate reserves and banking facilities by continuously monitoring forecast and actual cash flows and by matching maturing profiles of financial assets and financial liabilities in accordance with the approved risk management policy of the Company. The Company invests its surplus funds in bank fixed deposits which carry minimal mark to market rates.

Liquidity and Interest Risk Tables :

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Rs. In Millions

Particulars	Less than 1 Year	1-3 years	3 to 5 years	5 years and above	TOTAL
31 March 2024					
Lease Liabilities	3410.46	4518.53	729.69	0.00	8658.68
Trade Payable	18156.01	0.00	0.00	0.00	18156.01
Other Financial Liabilities	5339.93	0.00	0.00	0.00	5339.93
Total	26906.40	4518.53	729.69	0.00	32154.62
31 March 2023					
Lease Liabilities	3712.09	6002.74	1979.35	0.00	11694.18
Trade Payable	17697.95	0.00	0.00	0.00	17697.95
Other Financial Liabilities	4190.59	0.00	0.00	0.00	4190.59
Total	25600.63	6002.74	1979.35	0.00	33582.72

The following table details the Company’s expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company’s liquidity risk management as the liquidity is managed on a net asset and liability basis.

Rs. In Millions

Particulars	Less than 1 Year	1-3 years	3 to 5 years	5 years and above	TOTAL
31 March 2024					
Non-interest bearing	20861.52	105.80	0.00	0.00	20967.32
Fixed interest rate instruments	42194.82	0.00	0.00	0.00	42194.82
Total	63056.34	105.80	0.00	0.00	63162.14
31 March 2023					
Non-interest bearing	16926.56	382.13	1233.01	0.00	18541.70
Fixed interest rate instruments	40693.21	0.00	0.00	0.00	40693.21
Total	57619.77	382.13	1233.01	0.00	59234.91

Non-interest rate bearing financial assets disclosed above includes Trade Receivable, Cash, Balances with banks held in current accounts, EEFC accounts and Other Balances with Banks and Other Financial Assets.

Fixed interest rate instruments disclosed above represents balances with banks held in deposit accounts and discounted financial assets.

The Company does not have any variable interest rate instruments.

37.6 Credit Risk:

Credit risk refers to the risk that a customer or a counterparty will default on its contractual obligations resulting in a financial loss to the Company. The credit worthiness of the customers are assessed through a strong credit risk assessment policy of the Company. The customers of the Company primarily comprise only the Group companies and, accordingly carry limited risk/exposure.

The credit risk on receivables from government agencies/authorities is minimal considering the sovereign nature of the receivables. Similarly, the credit risk on liquid funds in banks is limited considering that the counterparties are banks with high credit ratings and repute.

The Company is primarily involved in rendering services to other group companies. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables.

The carrying amount of the financial assets recorded in these financial statements, grossed up for any allowance for losses, represents the maximum exposures to credit risk.

37.7 Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The Management considers that the carrying amount of financial assets and financial liabilities recognized in the financial statements approximate their fair values.

37.8 Offsetting of financial assets and financial liabilities

The Company has not offset financial assets and financial liabilities.

The Company had filed an Unilateral Advance Pricing Arrangement application for the purposes of transfer pricing for a 5-year period beginning on 1 April 2013 in accordance with the applicable provisions. The Company during FY 2018-19 filed an application forconversion of Unilateral Advance Pricing Agreement to Bilateral Advance Pricing Agreement and, accordingly, the application for Bilateral Advance Pricing Agreement (BAPA) was also filed by Microsoft Corporation, USA with US-Internal Revenue Service (US-IRS) and the application was pending disposal as on 31 March 2020.

During the year ended 31 March 2021, the BAPA application was concluded and an agreement was entered into between the Indian and US Tax authorities. Pursuant to the same, the Company entered into an advance pricing agreement (APA) with the Central Board of Direct Taxes on 27 July 2021. As per the said APA agreement, certain adjustments were agreed to be made to the transfer price considered for the relevant years for the purposes of determining the income tax. As per the BAPA and APA agreement, the relevant provisions of the Income Tax Act, 1961 and the agreement between the Company and its customer, the net excess money on account of the transfer price adjustments relating to these years for tax purposes is not being repatriated into India and there are no other consequential adjustments arising on account of the same other than the tax incidence.

8.1 The Company has filed the modified returns giving effect to the APA and incremental tax arising on account of the above for the years from 1 April 2013 to 31 March 2018 has been duly accounted for by the Company. Also refer Note 29 and Note 33.

Further, the Company has filed an application on 13 May 2022 for entering into Bilateral APA covering years from 1 April 2023 to 31 March 2028 including for roll back years from 1 April 2019 to 31 March 2023.

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. The provision for taxation for the current year has been determined by the Management based on the tax position considered for tax filing and its assessment of the probability of acceptance of the same by tax authorities duly considering changes in facts and circumstances including the developments more fully described herein. Basis transfer pricing documentation undertaken by the Company and judicial precedents in its own case, the Management believes transactions undertaken by the Company with its overseas associated enterprises are at arm’s length. However, based on the APA entered into by the Company and recently filed BAPA application, and assessment carried out for each of the relevant years where income tax proceedings are pending conclusion, an amount of Rs. 1,613.72 Millions (out of which Rs. 3.52 Millions relates to earlier years) (Previous year Rs. 937.33 Millions) has been accounted for as additional provision for income tax in the Statement of Profit and Loss for the year ended 31 March 2024. Also refer Note 29 and Note 33.

Textual information (18)

Disclosure of accounting for government grants and disclosure of government assistance [Text Block]

3.7 Government grants

Government grants are not recognized until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the balance sheet and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognized in profit or loss in the period in which they become receivable.

*The company has taken on lease a land from Government of Uttar Pradesh, in respect of which the company is eligible for certain exemption on meeting certain conditions. As at 31 March 2024 and as at 31 March 2023, the Company has availed a stamp duty exemption of Rs.73.68 Million and has given a guarantee in respect of the same.

A. Income Tax

The Company has received orders from the Income Tax Department for various years detailed below primarily challenging the arms length pricing adopted by the Company and disalowances on account of Corporate tax adjustments. The Company has filed appeals against the orders before the appellate authorities which are pending disposal.

-Tax	55.70	102.31	
- Interest*	0.00	87.13	
Total	3478.13	3666.42	

*Interest amounts disclosed above represents amount of interest as per the orders received from the authorities till the date of the order.

Whilst the appeals before the CIT(A)/ ITAT are still pending to be concluded, with respect to the FY 2016-17 and FY 2017-18, the Company has recorded a provision for tax aggregating to Rs. 41.60 Millions and Rs. 205.53 Millions, respectively, based on management assessment. The Company has also recorded Rs. 92.07 Millions towards Interest for the FY 2017-18. Hence, the said provision amounts were reduced from the contingent liabilities disclosed above for the respective financial years.

'The Transferor Company (Refer Note 41) has received tax demands from the income tax authorities aggregating to Rs. 60.60 Millions (31 March 2022: Rs. 60.60 Millions) arising from transfer pricing adjustment and disallowance u/s 14A of the income tax act for the financial year ended 31 March 2017. The aforesaid order is primarily on account of adjustment to operating profit margins in respect of Software development and Marketing supporting services provided to the related parties and disallowance u/s 14A of the income tax act. The Company has made a deposit of Rs. 20 Millions(31 March 2022: Rs. 20 Millions) under protest against the above demand. The appeal against the said demand is pending before Income Tax Appellate Tribunal for the financial year ended 31 March 2017.

The Transferor Company (Refer Note 41) has received tax demands dated 29 July 2022 from the income tax authorities aggregating to Rs. 55.7 Millions (31 March 2022: Rs.55.7 Millions) arising from transfer pricing adjustment for the financial year ended 31 March 2018. The aforesaid order is primarily on account of adjustment to operating profit margins in respect of Software development and PSM segment services provided to the related parties. The Company has made a deposit of Rs.6 Millions (31 March 2022: Nil) under protest against the above demand. The appeal against the said demand is pending before Income Tax Appellate Tribunal for the financial year ended 31 March 2018. The Company has also received penalty demand for the aforesaid financial year under section 270A of the Income Tax Act,1961 dated 01 March 2023 from the income tax authorities aggregating to Rs. 73.6 Millions (31 March 2022: Nil). The Company has not made any deposit against the penalty order yet as the appeal against the said demand is pending before Income Tax Appellate Tribunal for its disposal and the Company is very confident of getting the order most likely in its favour.

For the Financial Years (“FYs”) 2005-06 to FY 2009-10, the Delhi High Court (“HC”) has passed its Order quashing the assessment orders passed by the Assessing Officer)”AO”) under section 143(3) of the Income tax act, 1961 “the Act”) for all the aforementioned years for not being compliant with the framework created by section 153 of the Act. Consequently, the Assessment proceedings as undertaken by the tax authorities shall stand nullified.

For the above-mentioned FYs, as stated above, the associated enterprise of the Company; MS Corp., in parallel filed an application before US Competent Authority initiating the mutual agreement procedure (“MAP”) as per Article 27 of India-USA Double Taxation Avoidance Treaty (“DTAA”). Since the HC has already quashed the proceedings, the Assessment Order against which the double taxation incidence occurred will now stand annulled. Therefore, the Company is contemplating to file the application for withdrawal of MAP for the aforementioned years, when the AO passes the revised Assessment Order reinstating the Original return position of the Company.

B. Service Tax

Pursuant to service tax audit conducted by the Service tax authorities (Audit wing), the Company has received a demand of Rs.77.8 Millions for the period 01 July 2012 to 30 June 2017 on post sales services provided to overseas customers. Final order is yet to be passed by Adjudicating Authority. The Management believes that liability will not be sustained under the erstwhile Service Tax Act and accordingly no provision has been made in the financial statements.

29.2 Show Cause Notices/Draft Assessment Orders

The details of the show cause notices/draft assessment orders received by the Company from various government agencies pending formal demand notices which are not considered as claims against the Company not acknowledged as debts are given below:

Particulars	As at 31 March 2024	As at 31 March 2023

	Rs. In Millions	Rs. In Millions
(a) Andhra Pradesh VAT / GST	236.67	236.67

29.3 Other disputes

Particulars	As at 31 March 2024 Rs. In Millions	As at 31 March 2023 Rs. In Millions
(a). Service tax refund claims - Bangalore Unit	82.44	82.44
(b). Disputes related to TDS		
- Hyderabad Unit	1.39	1.32
- Bangalore Unit	0.27	0.00

29.4 The amounts shown above as Contingent Liabilities and other disputed claims represent the best possible estimates arrived at on the basis of the available information. The uncertainties and possible reimbursement are dependent on the outcome of the various legal proceedings which have been initiated by the Company or the claimants, as the case may be and, therefore, cannot be predicted accurately. The Company expects a favourable decision with respect to all the above disputed demands / claims based on professional advice. Further, based on the understanding / confirmation received by the Company from Microsoft Corporation USA (the ultimate holding company), the Company is a risk insulated entity and, hence, any additional/ significant tax exposure on the Company ultimately determined and accepted would be compensated suitably by the Ultimate Holding Company. Also Refer Note 33.

31 Employee Benefits

31.1 Defined Contribution Plan

The Company makes Provident and National Pension Fund contributions for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The contributions payable by the Company are at rates specified in the rules of the Schemes/Policy are as below:

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Employer's Contribution to Provident Fund	3915.66	3440.56
Employer's Contribution to National Pension Fund	410.46	529.66
Total	4326.12	3970.22

31.2 Defined Benefit Plans

The Company's obligation towards its Gratuity liability is a Defined Benefit Plan. The Company has not funded its Gratuity liability and the same continues to remain as unfunded as at 31 March 2024. The following table sets out the status of the Gratuity scheme and the amount recognised in the financial statements as per the Actuarial Valuation done by an Independent Actuary:

These plans typically expose the Company to actuarial risks such as: investment risk, interest rate risk, longevity risk and salary risk.

Investment risk	The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. When there is a deep market for such bonds; if the return on plan asset is below this rate, it will create a plan deficit. Currently, as stated above, the Company's gratuity plan is unfunded.
Interest risk	A decrease in the bond interest rate will increase the plan liability.
Longevity risk	The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.
Salary risk	The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

In respect of the above plans, the most recent actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2024 by an independent member firm of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

(a) Amount recognised in the total comprehensive income in respect of the defined benefit plan are as follows :

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Service Cost		
- Current Service Cost	1151.75	1044.50
- Net interest expense	350.21	275.96
Components of defined benefit costs recognised in profit or loss (A)	1501.96	1320.46
Remeasurement on the net defined benefit liability :		
- Actuarial (gain)/loss arising form changes in financial assumptions	-529.91	-501.73
- Actuarial (gain)/loss arising form experience adjustments	165.20	362.00
- Actuarial (gain)/loss arising form Demographic assumptions	0	86.64

Components of defined benefit costs recognised in other comprehensive income (B)	-364.71	-53.09
Total (A) + (B)	1137.25	1267.37

(i) The current service cost and interest expense for the year are disclosed as "Gratuity" under the "Employee Benefit Expenses" line item in the statement of profit & loss.

(ii) The remeasurement of the net defined benefit liability is included in other comprehensive income.

(b) The amount included in the balance sheet arising from the entity's obligation in respect of defined benefit plan is as follows :

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Net Asset/(Liability) recognised in the Balance Sheet:		
Gratuity:		
Present value of defined benefit obligation	6135.45	5298.98
Fair value of plan assets	0	0
(Surplus) / Deficit	6135.45	5298.98
Current portion of the above	589.57	467.64
Non current portion of the above	5545.88	4831.34
Total	6135.45	5298.98

(c) Movement in the present value of the defined benefit obligation are as follows :

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Present value of defined benefit obligation at the beginning of the year	5298.99	4430.48
Expenses Recognised in the Statement of Profit and Loss:		
Service Cost		
- Current Service Cost	1151.75	1044.50
- Net interest expense	350.21	275.96
Recognised in Other Comprehensive Income		
- Actuarial Gain (Loss) arising from:		
i. Financial Assumptions	-529.91	-501.74
ii. Experience Adjustments	165.20	362.00
ii. Demographic Assumptions	0	86.64
Acquisitions (credit)/ cost	0	0
Benefit payments	-300.79	-398.86
Present value of defined benefit obligation at the end of the year	6135.45	5298.98

(d) Movement in fair value of plan assets are as follows :

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Fair value of plan assets at the beginning of the year	0	0
Expenses Recognised in the Statement of Profit and Loss:		
- Expected return on plan assets	0	0
Recognised in Other Comprehensive Income		
Remeasurement gains / (losses)		
- Actuarial gains and loss arising form changes in financial assumptions	0	0

- Return on plan assets (excluding amount included in net interest expense)	0	0
Contributions by employer	300.79	398.86
Benefit payments	-300.79	-398.86
Fair Value of Plan assets at the end of the year	0	0

(e) The principal assumptions used for the purpose of actuarial valuation were as follows :

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Discount rate	7.00%	7.15%
Expected return on plan assets	NA	NA
Attrition Rate	11.00%	11.00%
Retirement Age	58 Years	58 Years
Expected rate of salary increase	8.00%	2% p.a.for first year and 10.00% p.a. thereafter
Mortality *	Indian Assured Lives Mortality (2006-08)	Indian Assured Lives Mortality (2006-08)

* Based on India's standard mortality table with modification to reflect the expected changes in mortality/others

(f) Significant actuarial assumptions for the determination of defined obligation are discount rate, expected salary increase rate and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant :

Impact on the Defined benefit Obligation	0.5% point increase		0.5% point decrease	
	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Change in the discount rate	-207.17	-204.43	220.64	220.46
Change in Expected rate of salary increase	151.55	141.96	-150.30	-140.66

31.3 Compensated Absences

The key assumptions used in the computation of provision for compensated absences as per the actuarial valuation done by an Independent Actuary are as given below:

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Assumptions		
Discount Rate	7.00%	7.15%
Future Salary Increase	8.00%	2% p.a.for first year and 10.00% p.a. thereafter
Attrition Rate	11.00%	11.00%

41 Business combination under common control

The Board of Directors of the Company, at its meeting held on 26 September 2023 approved the Scheme of Amalgamation (“Scheme”) of Nuance India Private Limited (“Transferor Company”/"NIPL") with Microsoft India R&D Private Limited (“Transferee Company"). The Hon’ble National Company Law Tribunal, New Delhi Bench pronounced the order on 20 August 2024, approving the aforesaid Scheme from the appointed date of 1 April 2023. The certified true copy of the order was filed with the Registrar of Companies on 14 September 2024. The Company accounted for the amalgamation by applying the common control guidance in Appendix C to Ind AS 103 - Business Combinations. Consequently, financial statements have been restated for the year ended 31 March 2023 to give effect to the Scheme along with also restating the opening balances of retained earnings and other reserves as at 1 April 2022.

Pursuant to Scheme, the Transferee Company has recorded the assets and liabilities of the Transferor Company in its books of accounts at the carrying value as reflected in the books of Transferor Company. The intercompany balance between Transferor Company and Transferee Company has been eliminated.

Also, in terms of the Scheme, the Company to issue 50,000 ordinary (equity) shares of Rs. 10 each as fully paid up to the shareholders of the Transferor Company in the ratio of 1:1 ordinary (equity) shares of Rs. 10 each for every fully paid-up equity shares of Rs. 10 each held in the Transferor Company. The same is presented as “Share application pending allotment” under “Other Equity” as at 31 March 2023 and 31 March 2024.

Assets acquired and liabilities assumed

The details of assets and liabilities transferred from transeferor company to the transferee company and shares issued pursuant to the scheme of arrangement are as under:

Textual information (29)

Disclosure of other provisions, contingent liabilities and contingent assets [Text Block]

33 Provision for Contingencies:

The Company carries a provision for disputed matters towards possible claims against the Company. The details of the same are as below:

Particulars	For the year ended 31 March 2024 Rs. In Millions	For the year ended 31 March 2023 Rs. In Millions
Opening Balance	608.96	713.97
Provision made during the year (Refer Note 8.1)	72.15	346.46
Amounts Utilised/Paid during the year	-170.89	-105.45
Provision reversal	0	-346.02
Closing Balance	510.22	608.96

Note:

Provision for contingencies represents the estimated provision made for probable liabilities relating to certain claims / other matters. Whilst the provision is considered short term in nature, the actual outflow with regard to the said matters depends on the exhaustion of the remedies available under the law and, hence, the company is not able to reasonably ascertain the timing of the outflow. No recoveries are expected in respect of the same.

(A) Ongoing Projects								
	Future Ready Youth Skilling Program Project aims to train 1500 female students through skill development courses like artificial intelligence, data							

	analytics, web application development, IT enabled services, accounts executive (tally, GST, advanced excel) and Power BI ("Future Ready Skills"). Employment				
Nirmaan Organization		11.90	0.99		-10.92

	support will be provided to ensure 900 beneficiaries get job placements in various sectors.			
Ank	Project Kalpana - Reaching heights through STEM The project targets 6 government girls' schools. Under the Project, 9000 girls belonging to classes 6-12 will receive STEM education with hands-on training.	9.29	4.03	-5.25
Vision Empower	Project VICT Phase 04: Empowering 7500 visually impaired children and 1000 visually impaired teachers with numeracy skills and computational thinking in 100 government supported, special education schools across India in partnership with Vision Empower Trust	9.11	3.22	-5.89
Collective Good Foundation	Project Udyami - The Project will support 4,800 women entrepreneurs to scale up the growth of their businesses. This will be done by providing the beneficiaries access to credit, social security schemes, supporting them in formalising their businesses through registration on the Indian government’s Udyam Assist Portal and providing enterprise development support in the form of digital and financial tools, skilling and access to market linkages	20.00	3.00	-17.00
Advanced Resource Centre For Humanitarian Development Foundation ARCH) Foundation	Educode: The project aims to equip young students from government educational institutions with foundational coding skills, digital literacy, and an introduction to artificial intelligence to prepare them for the future job market and promote innovation in their communities.	11.32	3.20	-8.13
Data Security Council of India (DSCI)	Cybershikshaa CyberShikshaa - Phase 03 aims to provide in-depth training to underserved young women or girls from tier 2/3 towns for cybersecurity careers and bridge the gender divide in cybersecurity domain. The Project also provides short term industry relevant modules on cybersecurity with certification and internship opportunities for larger number of youth and jobseekers to be ready for in-demand cybersecurity job roles.5100 individuals to benefit.	11.45	7.20	-4.25
Pi Jam Foundation	TechUnnati: The Project centres on systems convergence, bringing together AIM ATL and Samagra Shiksha ICT CAL ecosystems to equip 75000 students with essential 21st-century skills through comprehensive CS education. This involves empowering 150 ATL and 500 ICT CAL teachers through an experiential and blended training program. The Project will also create proof points of excellence by identifying exemplary model teachers and setting up PI Labs. The Project aims to also conduct student boot camps to demonstrate high-quality CS education	16.26	1.08	-15.18
	Aalamba Digital Skill Development			

Headstreams	and Entrepreneurship: The project aims to improve access to relevant employability skills so young rural women may have better chance of getting secure employment and remaining employed. 800 youth(with at least 50% of them being young women), will be provided access to the employability pathway to enable them to join the labour force. In addition to this, 25 young women from vulnerable and marginalized backgrounds will learn the basics of entrepreneurship by practicing it, under the entrepreneurship pathway.	8.70	0.66	-8.04
Sambhav Foundation	Cultivating Digital Futures: Digital Skills integration in Karnataka's schools: Through the Project, Sambhav Foundation will provide 4800 students, from 8th and 9th grade across 18 government schools in Karnataka (50 % of which will be female candidates and 80% of which will be candidates from underserved communities), training in coding, computational skills, reasoning skills and other related skills with a special focus on Microsoft's Farm Beats using Raspberry Pi Tool Kit	15.48	5.62	-9.86
Sikshana Foundation, a unit of Sivasri Charitable Trust	Shiksha Copilot – A Teacher Companion. This Project will leverage the power of AI for assisting teachers in generating lesson plans and professional development using the AI model Shiksha Copilot, developed by Microsoft, to build a user interface/platform for the Project. This Platform will focus on empowering 1000 Government school teachers (who teach Math, Science, English and Social Sciences) in the state of Karnataka teachers with technology that will improve their efficiency and productivity in a resource constrained classroom environment. The secondary beneficiary in the project are 30,000 school students from Grades V to X in the Government schools in the state of Karnataka	11.11	0.47	-10.64
NIIT Foundation	Youth Skilling and Livelihood through Career Development Program: This Program aims to bridge this skill gap by providing industry-aligned career development courses ensuring that individuals have the required competencies to seek career opportunities. The Project aims to skill 1360 unemployed youth in the Project Locations by equipping them with the necessary technical skills for employment in the organized sector. 952 youth, i.e.,70% of the targeted beneficiaries will be offered job placements through this Program.	15.99	0.00	-15.99
	Campus to Financial Careers (C2FC) program: The project shall facilitate training and placements for 1,700 students across			

	Hyderabad and Pune The Project aims to benefit disadvantaged youth by helping them secure jobs and lift their families out of poverty. The typical profile of the beneficiaries of this Project includes first generation learners from the under-served					
TNS India Foundation		19.11	0.47		-18.63	

	population, who typically reside in urban slums, and are in their final year of graduation at low-tier institutions.			
MentorMe Foundation	AI for Inclusive Education: Project to impact the lives of 23,000 students aged 11-17 (Grade 6th - 12th) and empower them to develop 21st-Century Skills via co-curricular activities such as coding, science (electronics), and financial literacy using Grantee's artificial intelligence and machine learning enabled WhatsApp bot (TAP Buddy)and through teacher-led TAP class	14.92	0.00	-14.92
TNS India Foundation	Green Skills for Youth in Vocational Education for Manufacturing Sector : Project aims to usher 10,000 disadvantaged and vulnerable youth enrolled in 70 government Industrial Training Institutes (ITIs) and polytechnics in Karnataka, Tamil Nadu and Telangana with 21st century skills, job readiness, digital productivity skills, industry skills and career orientation modules for emerging jobs in manufacturing sector, with a focus on women and in favor of women-only workforce requirements being encouraged in the manufacturing industries and further equipping them with green skills, practical use of green technology and green innovations for green jobs in the manufacturing sector	8.80	7.78	-1.02
eVidyaloka Trust	EmpowerEd: Transforming Rural Education for Girls through Technology and Mentorship The Project is designed to enhance the educational experience of 4,500 students by fostering digital literacy, with a focus on girl students in grades 6 to 9. The Project aims to. ? empower teachers with artificial intelligence technology tools to enhance their capacity in providing quality education; ? generate relevant content specific to teaching needs, enabling teachers to deliver effective lesson plans in schools, ? minimize the time taken by teachers to plan their lessons.	18.87	0.00	-18.87
National Institute of Mental Health and Neuroscience(NIMHANS)	Empowering Communities through Digital Psychological Intervention: Project, that aims to build a 'digital mental wellbeing technology platform' and enhance MindNotes application, Psychcare Peer support forum and PUSH-D application with a focus on reaching out to individuals who are experiencing common mental wellbeing concerns such as depression or anxiety but are not receiving or availing professional mental health support	7.38	7.38	0.00
	Future Skills for BFSI 2.0: Future			

Friends Union for Energizing Lives	Skills for Banking, Financial Services, and Insurance (BFSI) 2.0 Fintech Sector in Aspirational Districts aims to train 6400 youth from economically weaker sections of the society, in the aspirational districts of India, through a skill development program for in demand job roles BFSI 2.0 fintech sector and enable employment for 75% of the youth trained.	5.40	5.40	0.00
WORLDWIDE FUND FOR NATURE INDIA	Forest Fire Prediction with WWF India: To put in place a new framework that illustrates distribution, occurrences, risk area, and spatio-temporal variation with regard to forest fires across six sites in five states (Kerala, Karnataka, Tamil Nadu, Sikkim, and Uttarakhand) that fall within three critical WWF India landscapes (TAL, WGNL and KCL). This new framework will help Microsoft and WWF India to understand the characteristics, behavior, ecological condition ,and other contributing factors for the occurrence of forest fires in the Project sites. The purpose of this Project is to use fire characteristics and behavior obtained from remote-sensing and spatio-temporal analysis as input to predict, characterize and prevent forest fires.	3.36	2.86	-0.50
	SkillSaksham: This project will provide Digital Skills to ITIs with the Directorate General of Training (DGT) under their Craftsmen Training Scheme(CTS)with a view to strengthen the vocational education system for job-employability linked IT skills based on Microsoft Office productivity suite and Microsoft Technology Associate (MTA) certification through development of blended industry aligned training and content and building capacities of the faculty members. The following will be the outcomes of the project: ? Instructor led training In-depth training for 1000 learners with a support of job/internship/apprenticeship opportunities to 50% successful learners. ? 40-60 hours training for 5000 learners on relevant content curated in program in instructor led format. 20% of the students who successfully gets certified will be supported with job/internship/apprenticeship opportunities. These locations can be aligned in aspirational districts / semi-urban / rural areas in the select geographies for larger impact and outreach. ? Integration of the curated content with Bharat Skills portal i.e., online digital platform for			

	students by DGT for enhanced outreach and capturing the progress of the learners			
Edunet Foundation		18.24	13.14	-5.10

	? Engagement of volunteers from Microsoft into the trainings to deliver enhanced learning					
Plan International India Chapter	Technology Enabled Learning and Digital Skills for Government Schools: This project deployed in partnership with Byju’s and Plan International India intends to impart basic and intermediary digital literacy to 18000 marginalized girls in a total of 60 middle/high government schools in the regions with low computer penetration in four states of India - Telangana, AP, Uttar Pradesh and Gujarat		15.85	10.91		-4.93

	50 technical solutions that solve local problems delivering societal impact		
Vision Empower	This Project will be complementing the ongoing Project VICT with technology/educational aids, that would help Vision Empower to reach additional 25 schools and 25 resource centres, empowering 5000 visually impaired children and 250 VI teachers, in addition to improving the learning efficiency and outcomes of 7500 children and 1000 teachers in the ongoing program, deployed in 100 schools. This program is in alignment with the Project VICT and focuses on rolling out accessible technology aids & platforms for 100 schools.	0.30	0.30
Give Foundation	Microsoft in partnership with Give Foundation would support 20,000 marginalized citizens, to access the benefits of government welfare services through 50 digital women entrepreneurs/field agents as Haqdarshaks. · Microsoft would further help generate employment opportunities for deserving youth by training 7500 of them on basic digital financial literacy for 10-12 hours and linking 2500 of them to digital foundational skills training happening in Model Career Center in Noida under DigiSaksham. · Microsoft will set up a sustainable Digital Yojana Kendra - a brick-and-mortar scheme delivery center, through which the capacity building would happen in year 01 through Microsoft funding and later the center would be sustained with the earnings of 50 Haqdarshaks.	7.87	7.87
Nirmaan Digital	The Project aims to set up digital labs, supporting infrastructure and to provide training in computer science and coding for 6655 tribal students in 11 government schools under TTWREIS and TSWREIS in the backward districts of Telangana, thereby paving the right direction for a better future for tribal students in these schools and improving their digital skills specifically in the areas of 21st century skills including digital literacy, coding and computational thinking.	5.92	5.92
Sambhav Foundation	The Project aims to provide 3000 underserved youth with digital skills, link them to demand job roles in latest technology like cloud, AI and cybersecurity and ensure that they gain workplace readiness skills during the initial months of their onboarding process, to perform their job role to employer satisfaction. The Project will serve as a foundation for the underserved beneficiaries’ career growth and prepare them for opportunities in latest technologies	11.85	11.85

WWF- forest fire	The Project proposes to put in place a new framework that illustrates distribution, occurrences, risk area, and spatio-temporal variation with regard to forest fires across six sites in five states (Kerala, Karnataka, Tamil Nadu, Sikkim, and Uttarakhand) that fall within three critical WWF India landscapes (TAL, WGNL and KCL). This new framework will help Microsoft and WWF India to understand the characteristics, behavior, ecological condition, and other contributing factors for the occurrence of forest fires in the Project sites. The purpose of this Project is to use fire characteristics and behavior obtained from remote-sensing and spatio-temporal analysis as input to predict, characterize and prevent forest fires. Wildfire management groups, primarily the forest departments, already dealing with large fires every year, can use this information to become better prepared for future changes in wildfire incidences.		0.80			0.80		
Hum Azad Hai Welfare Foundation **	The project aims to set up a mobile mammography van (including the mammography equipment) and a mobile polyclinic to ensure accessible and inclusive healthcare services serving the underprivileged and vulnerable population in identified districts of Pune Scope of the services would include -Mammography Services -primary care -Preventive care -Diagnostic services -Dental services	2.00	0.00	11.81	13.94		4.13

* The shortfall is on account of amount unspent in cash by the implementing agency as at the Financial year end which has been transferred to a separate Unspent CSR account subsequent to 31 March 2023 , in accordance with the Companies Act, 2013 read with the CSR Amendment Rules.

There was no related party transactions, eg., contribution to a trust controlled by the company in relation to CSR expenditure.

** The amount includes Rs. 4.13 million (Rs. 2 million in the previous year) of overspending pertaining to the transferor company (refer Note 41)

40 : Other Statutory Information

(i) Title deeds of Immovable Properties not held in name of the Company:

The company does not hold any immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee) whose title deeds are not in the name of the company.

(ii) Revaluation of Property, Plant and Equipment

There has been no revaluation of Property, Plant and Equipment during the current and the previous years.

(iii) Loans or Advances:

The company has not granted Loans or Advances in the nature of loans to promoters, directors, KMPs and the related parties (as defined under Companies Act, 2013), either severally or jointly with any other person, that are:
(a) repayable on demand; or
(b) without specifying any terms or period of repayment,

(iv) Details of Benami Property held:

No proceeding has been initiated or pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(v) Borrowings from Banks or Financial Institutions:

The company has no borrowings from banks or financial institutions on the basis of security of current assets and so below requirements are not applicable during the current year and previous year;
(a) Quarterly returns or statements of current assets filed by the company with banks or financial institutions are in agreement with the books of accounts;
(b) Summary of reconciliation and reasons of material discrepanies

(vi) Wilful Defaulter:

The company is not declared as wilful defaulter by any bank or financial institution or other lender.

(vii) Relationship with Struck off Companies:

The company does not have any transactions with companies struck off under section 248 of the Companies Act, 2013 or section 560 of Companies Act, 1956.

(viii) Registration of charges or satisfaction with Registrar of Companies (ROC):

The company does not have any charges or satisfaction yet to be registered with ROC beyond the statutory period.

(ix) Compliance with number of layers of companies:

The company has complied with the number of layers prescribed under clause (87) of section 2 of the Act read with the Companies (Restriction on number of Layers) Rules, 2017.

(x)
Ratios:

S. No	Particulars	Numerator	Denominator	31-03-2024	31-03-2023	Varaince (%)	Reasons for Variance more than 25% (+ or -)
1	Current Ratio	Current Assets	Current Liabilities	1.94	2.04	-9.83%	
2	Debt Equity Ratio	Total Debt (including Lease Liabilities (Current and Non Current)	Shareholder’s Equity	0.14	0.19	-25.38%	Reduction in lease liability and increase in Retained earnings during the current FY resulted into the reduction in the variance.
3	Debt Service Coverage Ratio	Earnings for debt service = Net profit after taxes + Non-cash operating expenses	Debt service = Interest & Lease Payments + Principal Repayments	5.73	4.99	17.44%	
4	Return on Equity Ratio	Net Profits after taxes – Preference Dividend	Average Shareholder’s Equity (Opening + Closing)/2	0.25	0.30	-10.63%	
5	Inventory turnover ratio	Cost of goods sold	Average Inventory (Opening + Closing)/2	NA	NA	0.00%	
6	Trade receivables turnover ratio	Revenue from Operations	Average Trade Receivable (Opening +Closing)/2	13.69	6.82	52.41%	This is primarily due to delay in billing due to which Unbilled revenue (Other Current assets) as on 31 March 2024 and 31 March 2023 has increased and so decrease in average trade receivables. Further, the revenue from operations has increased during the current year compared to previous year.
7	Trade payable turnover ratio	Net credit purchases = Gross credit purchases - purchase return	Average Trade Payables (Opening + Closing)/2	0.58	0.86	-32.15%	Reduction in Vendor costs in FY24 and increase in the Average trade payables in FY24 resulted into variance
8	Net capital turnover ratio	Revenue from Operations	Working capital = Current assets – Current liabilities	4.47	4.38	11.08%	
9	Net profit ratio	Net Profit after Tax	Revenue from Operations	0.09	0.09	1.78%	
10	Return on capital employed %	Earnings before interest and taxes	Capital Employed = Tangible Net Worth + Total Debt + Deferred Tax Liability	0.32	0.31	5.78%	
11	Return on investment	Interest income on deposits (Finance Income)	Average of Investments	0.04	0.04	15.14%	

(xi) Compliance with approved Scheme(s) of Arrangements:

The company does not have any Scheme of Arrangements approved by the Competent Authority in terms of section 230 to 237 of the Companies Act, 2013.

(xii) Utilisation of Borrowed funds:

A. The company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kinds of funds) to any other persons or entities, including foreign entities (Intermediaries) with the understanding (whether recorded in writing or otherwise) that the Intermediary shall,
(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or
(ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries

B. The company has not received any fund from any person or entities, including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the company shall,
(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (Ultimate Beneficiaries) or
(ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries

(xiii) Undisclosed Income:

There are no transactions that are not recorded in the books of accounts that has been surrendered or disclosed as income on account of any income tax assesments during the year under Income Tax Act 1961.

(xiv) Details of Crypto currency or virtual currency:

The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year 2023-24.

(xv) Details of Investment Properties:

The Company does not have any investment properties as at 31 March 2024 and 31 March 2023 as defined in Ind AS 40.

(xvi) Audit trail and data back-up:

A) The Company has used accounting softwares for maintaining its books of account for the year ended 31 March 2024, which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the softwares except that:

i. In respect of software managed and operated by third party software service provider for providing payroll services, the independent auditor’s system and organization controls report does not cover whether the audit trail feature of the said software was enabled and operated throughout the audit period, for all relevant transactions recorded in the software or whether there was any instance of the audit trail feature been tampered with. The management is in discussions with the third-party software service provider to ensure reporting by their independent auditor on the audit trail feature in their system and organization controls report.

There are no instances of audit trail feature being tampered with, in respect of accounting softwares for which the audit trail feature was enabled and operating. The Company has adequate internal controls in relation to the books of accounts and is in the process of evaluating options to comply with the audit trail requirement.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from 1 April 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the year ended 31 March 2024 throughout the financial year.

B) The backup of the books of account maintained in electronic mode has been kept on monthly basis up to 27 November 2023, instead of on a daily basis, in a server physically located in India. However, post 27 November 2023 the same was maintained on a daily basis.

38 Share-based payments

38.1 Awards from the Ultimate Holding Company

The Company is covered under the employee stock and savings plan of Microsoft Corporation, USA (the ultimate holding company). Under the plan, the employees of the Company are granted shares and other stock awards of the ultimate holding company, in accordance with the terms and conditions as specified in the plan. The plan is assessed, managed and administered by the ultimate holding company, whose shares have been granted to the employees of the Company. The ultimate holding company currently operates an employee stock award program ("ESAP") and an employee stock purchase plan ("ESPP"). The Company has accounted for the amount of expense under Ind AS 102 considering the invoice received from the ultimate holding company and has made the related disclosures required under INDAS 102 based on information obtained from the ultimate holding company. Also Refer Note 38.4 below.

38.2 ESAP

The stock awards granted generally vest over a four or five-year service period. The annual stock awards are granted effective of the last business day in August; this effective date is the "award date "used for stock plan administration purposes and shown in the awards agreement. The grants are made by the ultimate holding company in its sole discretion and not by the Company. The number of shares in a stock award is calculated by dividing the dollar denominated value of the stock award grant by the closing Microsoft stock price as reported on Nasdaq.com on the last open market trading day in August, rounding partial shares up to the nearest whole share.

The following reconciles the share options at the beginning and at the end of the year:

Particulars	Number of options 31 March 2024	Weighted average exercise price 31 March 2024	Number of options 31 March 2023	Weighted average exercise price 31 March 2023
Options outstanding as at the beginning of the year	3945826	Nil	3323174	Nil
Add: Options granted during the year	1481914	Nil	2305693	Nil
Less: Options lapsed/forfeited during the year	-267246	Nil	-276498	Nil
Less: Options exercised during the year	-1500786	Nil	-1278518	Nil
Less: Options Transferred during the year	1220	Nil	-128025	Nil
Options outstanding as at the year end	3660928		3945826	

The fair value of each award was estimated on the date of grant using the following assumptions:

Particulars	2023-24	2022-23
Weighted Average Grant date Fair value in Rs.	27186.99	20522.45
Dividend per share (quarterly amounts) - in USD	\$0.68 - \$0.75	\$0.62 - \$0.68
Option life	3-5 years	3-5 years
Exercise price	0	0
Interest rate	3.8% - 5.6%	2% - 5.4%

38.3 ESPP

The employee stock purchase plan (ESPP) gives regular employees of the Company the opportunity to become shareholders in Microsoft Corporation, USA (the ultimate holding company) by purchasing stock at a 10 percent discount. Eligible employees can elect to have from 1 to 15 percent withheld from their paychecks each pay period for three months. At the end of each three-month ESPP offering, the total amount withheld from their paychecks is used to purchase shares from the plan. The purchase price per share is 90 percent of the closing fair market value of Microsoft stock on the last US business day of the offering period.

38.4 Total expense accounted for by the Company on account of the above are given below:

Rs. In Millions

Particulars	For the year ended 31 March 2024	For the year ended 31 March 2023
ESAP cost accounted by the Company	33249.81	32222.67
ESPP cost accounted by the Company	458.31	435.72
Total	33708.12	32658.39

The Company has excluded an amount of Rs. 38.83 Millions (Previous year - Rs. 334.11 Millions) for the purpose of identifying eligible costs subject to markup for revenue computation based on mutual understanding between the Company and the Customer, in line with the intial arrangement. The aforesaid amount has been credited to Capital contribution as part of other equity since no amount is required to be paid by the Company.
