• OPERATIONS

During FY 2023-2024, the Company reported a net profit of INR 14,249 million (Indian Rupees Fourteen billion two hundred forty nine million) in comparison to net profit of INR 13,425 million (Indian Rupees Thirteen billion four hundred twenty five million) for FY 2022-2023. The turnover of the Company for FY 2023-2024 is INR 66,945 million (Indian Rupees Sixty six billion nine hundred forty five million).

• CHANGE IN THE NATURE OF BUSINESS - UPDATES

During FY 2020-2021, the Company filed an application with the National Company Law Tribunal (“NCLT”) for demerger of the IT business undertaking of the Company with Google IT Services India Private Limited under Sections 230-232 of the CA 2013. During FY 2023-2024, the scheme of arrangement was approved by the NCLT vide order dated May 25, 2023 and scheme was given effect from 30th June 2023 in the financial statements. Upon approval of the scheme of arrangement, the IT business undertakings of the Company were transferred to and vested with Google IT Services India Private Limited with effect from the appointed date mentioned in the scheme of arrangement, being April 1, 2021.

• COMPANIES WHICH CEASED TO BE OUR SUBSIDIARY / JOINT VENTURE / ASSOCIATE COMPANY

The Company does not have any subsidiaries, associate companies or joint venture companies.

• PERFORMANCE AND FINANCIAL POSITION OF SUBSIDIARIES, JOINT VENTURES OR ASSOCIATE COMPANIES

The Company does not have any subsidiaries, associate companies or joint venture companies. Therefore, the provisions of Rule 8(1) of Companies (Accounts) Rules, 2014, do not apply to the Company.

• DEPOSITS

The Company did not accept any public deposits during FY 2023-2024 within the meaning of Section 73 of CA 2013, read with the Companies (Acceptance of Deposit) Rules, 2014 and, as such, no amount of principal or interest was outstanding on the date of the balance sheet and on the date of this Report.

• RESERVES

The Company carried forward INR 14,249 million (Indian Rupees Fourteen billion two hundred forty nine million) being net surplus amount for FY 2023-2024 under the header 'Reserve and Surplus' of the balance sheet.

• DIVIDEND

No dividend is proposed for FY 2023-2024.

• DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to provisions of Section 134(3)(c) and 134(5) of the CA 2013, the Board confirms the following in respect of the audited annual accounts for the financial year ended on March 31, 2024:

(i) That in the preparation of the annual accounts of the Company for the financial year ended on March 31, 2024, the applicable accounting standards have been duly followed, along with proper explanation relating to the material departures;

(ii) That the Board has selected such accounting policies and applied them consistently, and has made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year, and of the profit or loss of the Company for the financial year ended on March 31, 2024;

(iii) That the Board has taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the CA 2013, for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(iv) That the Board had prepared the annual accounts for the financial year ended on March 31, 2024, on a going concern basis; and

(v) That the Board had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems are adequate and operating effectively.

• SHARE CAPITAL

During FY 2023-2024, there was no change to the authorised, issued, subscribed and paid-up share capital of the Company.

The authorised share capital of the Company is INR 90,000,000 (Indian Rupees Ninety Million) divided into 9,000,000 (Nine Million) equity shares of INR 10 (Indian Rupees Ten) each.

The issued, subscribed and paid-up share capital of the Company is INR 10,738,790 (Indian Rupees Ten Million Seven Hundred Thirty-Eight Thousand Seven Hundred Ninety) divided into 1,073,879 (One Million Seventy-Three Thousand Eight Hundred Seventy-Nine) equity shares of INR 10 (Indian Rupees Ten) each.

The shareholding pattern of the Company as on March 31, 2024 is as follows:

At present, the directors of the Company are as follows:

- Ms. Fiona Mary Bones
- Mr. Kenneth Hohee Yi
- Mr. Robert Ernest Andreatta
- Mr. Kashimat Vishwanathaswamy Vishnu Prasad

• DECLARATION BY INDEPENDENT DIRECTORS

The Company, being a private unlisted company, is not required to mandatorily comply with the provisions regarding independent directors in terms of the CA 2013. Thus, this declaration is not applicable to the Company.

• AUDITORS

The statutory auditors M/s S.R. Batliboi & Associates LLP, Chartered Accountants, (firm registration number 101049W/E300004) were re-appointed as the statutory auditors of the Company in the seventeenth Annual General Meeting (AGM) of the Company held on September 30, 2020, for a period of 5 years commencing from the FY 2020-2021 up to the FY 2024-2025.

• AUDITORS' REPORT

Observations made by the auditors in the Auditors' Report read with the relevant notes in the Notes on Accounts are self-explanatory and therefore, there are no further comments under section 134 (3)(f)(i) of the CA 2013.

• FRAUD REPORTING

During FY 2023-2024, there were no frauds reported by the auditors in relation to Section 143(12) of the CA 2013.

• VIGIL MECHANISM

The provisions regarding vigil mechanism as provided under Section 177(9) of the CA 2013 read with Rule 7 of the Companies (Meetings of the Board and its Powers) Rules, 2014 are not applicable to the Company as it does not meet the applicability criteria prescribed for this under the CA 2013.

• NUMBER OF MEETINGS OF THE BOARD

The Board held a total of 4 (four) meetings during FY 2023-2024 on the following dates:

S. No.	No. of Board Meeting	Date of Board Meeting
1	First Board Meeting	08 June 2023
2	Second Board Meeting	28 September 2023
3	Third Board Meeting	28 November 2023
4	Fourth Board Meeting	25 March 2024

• AUDIT COMMITTEE

The requirement of having an audit committee is not applicable to the Company as the Company does not meet the applicability criteria specified under Section 177 of the CA 2013 read with Rule 6 of the Companies (Meetings of the Board and its Powers) Rules, 2014.

• EMPLOYEE STOCK OPTIONS (ESOP)

The Company did not offer any equity shares to its employees by way of employee stock options (ESOP) during FY 2023-2024.

• DISCLOSURE OF REMUNERATION OF EMPLOYEES COVERED UNDER RULE 5(2) OF THE COMPANIES (APPOINTMENT AND REMUNERATION OF MANAGERIAL PERSONNEL) RULES, 2014

The requirement of disclosing remuneration of employees of the Company under Section 134(3) of the CA 2013 read with Rule 5(1) and Rule 5(2) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, is not applicable on the Company, since it is not a listed company.

• LOANS, GUARANTEES AND INVESTMENTS

The Company has granted loans, guarantees or investments under the provisions of Section 186 of the CA 2013 during FY 2023-2024 to the below entity:

Name of the party	Amount given during the year
Google Connect Services India Private Limited	INR 6,500 million

• CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

The Company entered into various contracts/arrangements with related parties during FY 2023-2024, which were all on arm's length basis and in the ordinary course of business. The particulars of these transactions are provided in Form AOC-2 annexed herewith, as Annexure A.

Further, the disclosures regarding related party transactions required under the relevant accounting standard are detailed in the financial statements.

• MATERIAL CHANGES AND COMMITMENTS AFFECTING THE FINANCIAL POSITION BETWEEN END OF THE FINANCIAL YEAR AND DATE OF THE REPORT

There was no material change or commitment which affected the financial position of the Company between the end of the financial year of the Company and date of this Report.

• RISK MANAGEMENT POLICY

During the year, the Company took initiatives to strengthen risk management and crisis management within the organization and in compliance with clause (n) of sub-section (3) of Section 134 of CA 2013 the Company relies on its ultimate parent's risk management practices.

In the opinion of the Board, there are no material risks which threaten the existence of the Company at present.

• INTERNAL FINANCIAL CONTROLS

The Company has adequate internal control systems towards achieving efficiency and effectiveness in operations, optimum utilization of resources, cost reduction and effective monitoring thereof.

The internal control mechanisms comprise of well-defined organization structure, documented policy guidelines, pre-determined authority levels and processes commensurate with size and capacity of the organization, faster decision making and fixing the level of responsibility.

• CORPORATE SOCIAL RESPONSIBILITY ("CSR")

The Company constituted its CSR Committee and has also formulated its CSR Policy, setting out the initiatives to be taken by the Company. The CSR Committee members meet regularly to review and approve CSR matters and the current members of the CSR Committee are:

- Mr. Robert Ernest Andreatta
- Mr. Kenneth Hohee Yi
- Ms. Fiona Mary Bones
- Mr. Kashimat Vishwanathaswamy Vishnu Prasad

The members of the CSR Committee met twice (2) during the FY 2023-2024 on September 28, 2023 and March 25, 2024.

Google group considers social responsibility as an integral part of its business activities and the Company endeavors to fully utilize allocable CSR budget for the benefit of society in accordance with

the statutory requirements. During the FY 2023-2024, the Company was required to make a CSR contribution of INR 304,893,333 (Indian Rupees Three hundred four million eight hundred ninety-three thousand three hundred thirty-three).

During the FY 2023-2024, the Company has spent INR 58,000,000 (Indian Rupees Fifty eight million) toward CSR activities/projects and set-off the CSR contribution of INR 252,466,666 (Indian Rupees Two hundred fifty-two million four hundred sixty-six thousand six hundred sixty-six) from the excess CSR amount spent during the FY 2021-2022. The company has proposed to carry forward excess CSR amount spent of INR 5,573,333 (Indian Rupees Five million five hundred seventy three thousand three hundred thirty three) as the excess CSR amount for the FY 2024-2025, 2025-2026 and 2026-2027.

• CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

• Conservation of Energy, Technology Absorption

As the Company is not engaged in any manufacturing activity, there are no particulars to be furnished under the header conservation of energy and technology absorption as required under the provisions of Section 134(3)(m) of the CA 2013 read with Companies (Accounts) Rules, 2014.

(b) Foreign Exchange Earning and Outgoing

The particulars of foreign exchange earned and used during FY 2023-2024, are furnished here under:

(Amount in INR)

Foreign Exchange Earned: INR 51,183 million

INDEPENDENT AUDITOR'S REPORT

To the Members of Google India Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Google India Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

- In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except with respect to accounting software, the Company does not have server physically located in India for the daily backup of the books of account and other books and papers maintained in electronic mode from April 01, 2023 to August 13, 2023 as stated in note 44 to the financial statements and the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g).
- The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;
- With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in “Annexure 2” to this report;
- The provisions of section 197 read with Schedule V of the Act are not applicable to the Company for the year ended March 31, 2024;
- The modification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2(b) above on reporting under section 143(3)(b) and paragraph 2(i)(vi) below on reporting under rule 11(g);
- With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 28B to the financial statements;
- The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 40 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 40 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- No dividend has been declared or paid during the year by the Company.
- Based on our examination which included test checks, as described in note 44 to the financial statements, the Company has used payroll software which is operated by a third-party software service provider and accounting software for maintaining its books of account which has a

feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that in respect of accounting software, audit trail feature is not enabled for certain changes made, if any, using privileged/administrative access rights, as described in the note 44 to the financial statements.

Further, during the course of our audit we did not come across any instance of audit trail

feature being tampered with where audit trail has been enabled.

Re: Google India Private Limited (“the Company”)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the

normal course of audit and to the best of our knowledge and belief, we state that:

- The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (i) •
- The Company has maintained proper records showing full particulars of intangible assets.

• All Property, Plant and Equipment have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. As informed, no material discrepancies were noticed on such verification.

• There is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report on clause 3(i)(c) of the Order is not applicable to the Company.

• The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2024.

• There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

- (ii) • The Company's business does not require maintenance of inventories and accordingly, the requirement to report on clause 3(ii)(a) of the Order is not applicable to the Company.

• The Company has not been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.

During the year, the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to companies, firms, Limited Liability Partnerships or any other parties, except loan to company as given below:

Particulars

Loans

- Aggregate amount granted/ provided during the year

iii)

Aggregate amount granted/ provided during the year	Rs. 6,500 million
- Other than subsidiaries, joint ventures and associates	
Balance outstanding as at balance sheet date	
- Other than subsidiaries, joint ventures and associates	Rs. 7,400 million

- The loans granted as reported in clause (iii)(a) above are not prejudicial to the Company's interest. Except for the aforesaid loan, the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties.

- The Company had granted loan of Rs. 7,400 million to a company where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular except in case of repayment of principal and interest amount renewed during the year as detailed in clause iii(e) below.

- There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.

During the year, the Company had renewed loan given to other company to settle the loan granted to this party which had fallen due during the year.

The aggregate amount of such dues renewed and the percentage of the aggregate to the total loans granted during the year are as follows:

Name of party	Aggregate amount of loans or advances in the nature of loans granted during the year	Aggregate overdue amount settled by renewal or extension or by fresh loans granted to same parties	Percentage of the aggregate to the total loans or advances in the nature of loans granted during the year
Google Connect Services India Private Limited	Rs. 6,500 million	Rs. 3,400 million	52%

- The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

There are no loans, investments, guarantees, and security in respect of which provisions of section 185 of the Companies Act, 2013 are

(iv) applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company. Further, according to the information and explanations given to us, provisions of section 186 of the Companies Act, 2013 in respect of loans have been complied with by the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) The Company is not in the business of sale of any goods or provision of such services as prescribed. Accordingly, the requirement to report on clause 3(vi) of the Order is not applicable to the Company.

(vii) Undisputed statutory dues including goods and services tax, provident fund, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. The provisions relating to employees' state insurance are not applicable to the Company.

The dues of income tax, sales-tax, service tax, duty of customs, duty of excise, value added tax and cess have not been deposited on account of any dispute, are as follows:

(Rs. in mn)

Name of the statute	Nature of dues	Amount	Amount paid under protest	Period to which the amount relates	Forum where dispute is pending
Income tax Act, 1961	Income tax and interest	27,441	-	AY 16-17 to AY 19-20	High Court
Income tax Act, 1961	Income tax, interest and penalty	851	-	AY 10-11 to AY 15-16	Commissioner of Income Tax (appeals)
Income tax Act, 1961	Income tax, interest and penalty	17,396	7,231	AY 09-10 to AY 11-12, AY 13-14 to AY15-16	Assessing officer
Finance Act, 1994	Service Tax and penalty	5,122	200	July 2012 to September 2014	Customs Excise & Service Tax Appellate Tribunal
Goods & service Tax Act 2017	Tax	699	-	July 2017 to March 2019	Commissioner (Appeals)

viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

- The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause ix(a) of the Order is not applicable to the Company.

- The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

- The Company did not have any term loans outstanding during the year hence, the requirement to report on clause 3(ix)(c) of the Order is not applicable to the Company.

(ix) • The Company did not raise any funds during the year hence, the requirement to report on clause 3(ix)(d) of the Order is not applicable to the Company.

- The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.

- The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or joint venture. Hence, the requirement to report on clause 3(ix)(f) of the Order is not applicable to the Company.

- The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.

(x) • The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.

- No fraud/ material fraud by the Company or no fraud / material fraud on the Company has been noticed or reported during the year.

(xi) • During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

- As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

- The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a) of the Order is not applicable to the Company.

- The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(b) of the Order is not applicable to the Company.

(xii)

- The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(c) of the Order is not applicable to the Company.

(xiii) Transactions with the related parties are in compliance with sections 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the Company and accordingly the requirements to report under clause 3(xiii) of the Order insofar as it relates to section 177 of the Act is not applicable to the Company.

- The Company has an internal audit system commensurate with the size and nature of its business.

(xiv) • The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.

(xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.

- The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

- The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause 3(xvi)(b) of the Order is not applicable to the Company.

(xvi) • The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.

- There are no other Companies part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company.

(xvii) The Company has not incurred cash losses in the current year and in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.

(xix) On the basis of the financial ratios disclosed in note 39 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of

the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get

discharged by the Company as and when they fall due.

(xx)

- In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in note 37 to the financial statements.

- There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act. This matter has been disclosed in note 37 to the financial statements.

Annexure 2 to the Independent auditor's report of even date on the financial statements of Google India Private Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Google India Private Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Textual information (30)

Disclosure of significant accounting policies [Text Block]

• Corporate information

The financial statements of the Company for the financial year ended March 31, 2024 were authorised for issue in accordance with a resolution of the directors dated September 27, 2024.

Google India Private Limited (the “Company”) is engaged in rendering of Information Technology (IT) Services and IT enabled services (ITES) to its Group Companies engaged in the Internet Industry. The Company is also a third-party reseller of advertising space of Google AdWords program and other Google advertising products and services in India to advertisers seeking to market their products and services to consumers and business users over the Internet.

• Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (“the Act”) (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The financial statements are presented in Indian rupees and all values are rounded to the nearest million, except otherwise indicated.

On December 17, 2020, the Board of Directors of the Company considered and approved the demerger of its Information Technology segment ("IT business" or "Demerged Undertaking") of the Company on a going concern basis by way of Scheme of Arrangement ("the Scheme"). The Bengaluru Bench of the National Company Law Tribunal ("NCLT") has approved the scheme between Google India Private Limited ("Transferor") and Google IT Services India Private Limited ("Transferee") and their respective shareholders and creditors, through its order dated May 25, 2023 (the "Order"). The Certified True Copy of the Order along with sanctioned Scheme was received on June 21, 2023. The Scheme became effective on June 26, 2023, upon filing of the certified copies of the NCLT Order sanctioning the Scheme, by both the companies, with the Registrar of Companies, Karnataka ("ROC").

Considering that all necessary and substantive approvals were received, the Company had given effect to the demerger accounting from June 30, 2023 in accordance with the accounting treatment prescribed in the Scheme and relevant accounting principles.

Accounting of Demerger as per approved Scheme:

As per Clause 21.1 of the Scheme, upon the Scheme coming into effect, the transferor shall account for the demerger of the Demerged Undertaking in accordance with Indian Accounting Standards (“Ind AS”) 103 notified under Section 133 of the Act, as notified under the Companies (Indian Accounting Standard) Rules, 2015 and generally accepted accounting principles, as may be amended from time to time, in its books of accounts such that:

- All the assets and the liabilities of the demerged undertaking as appearing in the books of accounts of the Transferor shall be transferred to and vested in the Transferee pursuant to the Scheme and shall be reduced from the respective book value of assets and liabilities of the Transferor.
- Inter-company balances between the Transferor and the Transferee, if any to the extent it relates to the demerged undertaking, shall stand cancelled and there shall be no further obligation outstanding in this behalf.
- The difference between the assets and liabilities relating to the demerged undertaking transferred to the Transferee as per clause 21.1(i) of the Scheme and after making the adjustments as per clause 21.1(ii) of the Scheme, if any, shall be recognised through retained earnings of the Transferor.
- For accounting purpose, the Scheme will be given effect from the date when all substantial conditions for the transfer of business are completed,

i.e., the control is transferred in accordance with the requirements of Ind AS.

Till the date of transfer i.e June 30, 2023, the results of the Demerged Undertaking ("IT business") were reflected and presented as discontinued operations.

- Summary of material accounting policies
- Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

- Foreign currencies
- Functional and presentation currency

The financial statements of the Company's operations are measured using the currency of the primary economic environment in which the Company operates (the "functional currency").

- Transactions and balances

Transactions in currencies other than the Company's functional currency ("foreign currency") are recorded at rates of exchange which approximates the actual rates on the date of the transaction. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items and on translation of monetary items are included in profit or loss for the

financial year. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the financial year except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

- Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

- Fair value hierarchy

The Company categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 — Quoted prices (unadjusted) in active market for identical assets or liabilities that the Company can access at the measurement date,
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 — Unobservable inputs for the asset or liability

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

- Assets and liabilities measured at fair value

Management has determined that the carrying amounts of cash and cash equivalents, trade and other receivables, amounts due from/(to) related companies, and trade and other payables, based on their notional amounts, reasonably approximate their fair values because these are mostly short-term in nature.

- Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking

into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised.

- **Rendering of information technology and enabled services** Revenue from rendering of information technology and enabled services are recognised on accrual basis for services rendered and billed as per the terms of specific contracts, which is on the basis of cost expended plus an agreed profit margin.

- **Sale of advertising space, net (refer 18a)**

Revenue from sale of advertising space is billed to its customers (the advertisers) and is recognised based on display/clicks of advertisements that are placed on Google Network Members websites as per the terms of the specific contracts.

- **Sale of enterprise products, net (refer 18a)**

Revenue from sale of enterprise products (Cloud computing services such as Gmail, Google docs), billed to its customers (users), is recognised over the terms of the service agreements entered with the users.

- **Contract balances**

Contract assets

Contract assets represents service rendered for which bill is yet to be raised in terms of the agreement with respective customers.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (m) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

Contract liabilities represents advance billings to customers against which service is yet to be rendered to the customers.

- **Other income**

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other income" in the statement of profit and loss.

- **Taxes**

The tax expense for the year comprises current and deferred tax.

- **Current income tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authority. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognized outside profit or loss, either in other comprehensive income or directly in equity. Current tax assets and tax liabilities are offset where the company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

• Deferred tax

Deferred tax is recognised in respect of all temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except where the deferred tax asset or liability arises from the initial recognition of an asset or liability which affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that there will be suitable future taxable profits available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets are reviewed at each reporting date and adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be utilised.

Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and laws enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in profit or loss, other comprehensive income or directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and deferred income taxes relate to the same taxable company and the same taxation authority.

• Property, plant and equipment

Property, plant and equipment are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment are stated at cost less accumulated depreciation and impairment value, if any.

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition

of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

Subsequent expenditure is added to the carrying amount of the asset when it is probable that the future economic benefits, in excess of standard performance of the asset before the expenditure was made, will flow to the Company, and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from their use. On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to profit or loss.

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of its property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimate useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation is provided on the straight-line method over their estimated useful lives as follows:

Asset Description	Useful life as estimated by the management	Useful life as stated in the Companies Act, 2013
(in years)	(in years)	
Computer equipment	2	3
Networking equipment	3-5	6
Office equipment	3-5	5
Furniture and fixtures	5	10
Vehicles	3-5	8
Leasehold improvements	Provided over lease period or five years, whichever lower	Provided over lease period or five years, whichever lower

Assets under construction primarily relate to supplies. These are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The assets' useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

• Intangible assets (Indefeasible Right of Use – IRU)

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Indefeasible Right of Connectivity bandwidth capacities of the Company are capitalised as intangible assets. Intangible assets are stated at cost less accumulated amortisation. IRU taken by the Company are amortised over a period of five to eight years based on technical estimate of useful lives or the agreement whichever is lower.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

- Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains a lease, if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Arrangements as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the lease commencement date, less any lease incentives received; plus any initial direct costs incurred; plus an estimate of costs to be incurred by the Company in dismantling and removing the underlying asset or to restore the underlying asset or the site on which it is located.

The right-of-use asset is depreciated over the shorter of the useful life of the asset and the lease term. In addition, the right-of-use asset is periodically reduced for impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, an appropriate incremental borrowing rate, as determined by the Company.

The lease liability is subsequently measured at amortised cost using the effective interest rate method and re-measured when there is a change in future lease payments arising from a change in index or rate, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or for certain lease modifications. A corresponding adjustment will be made to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to nil.

The carrying amount of the lease liability is reduced to reflect lease payments made by the Company during the period.

Practical Expedients and Exemptions

The Company has lease agreements with lease and non-lease components. The Company has elected the practical expedient to account for lease and any associated non-lease components together as a single lease component for all classes of underlying assets.

The Company does not recognise the right-of-use asset and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

- Impairment of non-financial assets and financial assets measured at cost

The carrying amounts of the non-financial and financial assets measured at cost (property, plant and equipment, intangible assets, right-of-use assets, and others) are reviewed at each reporting date to determine whether there is any indication of impairment in value. If any such indication exists, the assets' recoverable amount is estimated.

An impairment in value is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment in value is recognised in profit or loss.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

The fair value less costs to sell is the amount obtainable from the sale of an asset or cash generating unit in an arm's length transaction between knowledgeable, willing parties, less costs of disposal.

Value in use is the present value of estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life, discounted at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating

unit for which the future cash flow estimates have not been adjusted.

An assessment is made at each reporting date as to whether there is any indication that an impairment in value recognised in prior periods for an asset may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

An impairment in value recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment in value was recognised. An impairment in value is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of any depreciation/amortisation, if no impairment in value had been recognised.

Reversals of impairment in value are recognised in profit or loss. After such a reversal, the depreciation/amortisation is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

- Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation, and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when recovery is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

The Company's categories of provisions are detailed as follows:

- Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit plan for its employees, viz., gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Compensated absences

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

- Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions) of the ultimate holding Company – Alphabet Inc.,

Equity-settled transactions

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted and is recognised as an expense over the vesting period, which ends on the date on which the relevant employees become fully entitled to the award.

Restricted share units (“RSUs”) are measured based on the fair market values of the underlying share on the dates of grant.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company’s best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

The Company is required to estimate the expected forfeiture rate (based on historical experience) and only recognise an expense for those shares expected to vest. To the extent the actual forfeiture rate is different from the estimate; the share-based payment is adjusted prospectively. The movement in cumulative expense since the previous balance sheet date is recognised in the Statement of Profit or Loss and Other Comprehensive Income, with a corresponding entry in equity (“Other equity reserves” account).

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company’s best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Cash-settled transactions

The Company does not have share-based payment resulting from cash-settled transactions.

- Financial assets

Financial assets are recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss ("FVTPL"), directly attributable transaction costs.

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired or has been transferred and the Company has transferred substantially all risks and rewards of ownership.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that has been recognised directly in equity is recognised in profit or loss.

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e. the date that the Company commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Classification and measurement

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("FVTOCI"), or FVTPL), and
- those to be measured at amortised cost.

A financial asset is measured at amortised cost if it has not been designated as FVTPL and meets both of the following conditions:

- it is held within a business model whose objective is to hold to collect contractual cash flow; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at FVTOCI if it has not been designated as FVTPL and meets both of the following conditions:

- it is held within a business model whose objective is both to hold to collect contractual cash flow and sell financial assets and;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. All the Company's debt instruments are measured at amortised cost as the assets that are held for collection of contractual cash flows

where those cash flows represent solely payments of principal and interest are measured at amortised cost.

A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

The Company's debt instruments consist of the following:

- Loans
- Debt securities
- Deposits
- Trade receivables
- Bank balances

Impairment of debt instruments measured at amortised cost

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

For trade receivables, including intercompany trade receivables, the company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics. The Company uses judgement in making assumptions around the risk of default and expected loss rates, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

For loans owed from related parties, the Company applies the general approach to providing for expected credit losses, as prescribed by Ind AS 109. The general expected credit loss model under Ind AS 109, requires the calculation of '12 month expected credit losses' (losses based on defaults which are possible within 12 months of the reporting date) for financial assets, unless the asset at the reporting date is not considered to be 'low credit risk' and is deemed to have had a 'significant increase in credit risk' since initial recognition, in which case lifetime expected credit losses should be recorded.

Management consider amounts due from related parties to have 'low credit risk' when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the short term.

Deposits represent payments made to landlords as security for leased premises and are initially measured at the consideration paid to the lessor less loss allowance. Subsequently deposits are measured at amortise cost using the effective interest rate method. For deposits the Company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the deposits.

Deposits are presumed to be fully recoverable, where:

- the Company remains in the leased property and is within the period of existing leasing terms,
- there is no indication that there has been damage to the premises, or a breach of contract has occurred, that would suggest a lease deposit balance would not be received in full, and
- the Company is up to date with all its lease payments and is meeting any other contractual commitments required in the lease contract.

An expected credit loss will be calculated when the Company has exited the lease and the balance has become aged or any of the criteria above have not been met. Expected credit loss calculations for lease deposit balances will be made on a lease by lease basis and will factor in the following:

- ageing of lease balance outstanding,
- past precedent and historic trends in successfully recouping lease balances, and
- general market conditions in relation to the rental sector.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

• Financial liabilities

Financial liabilities are recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the financial instrument.

Financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities other than derivatives, directly attributable transaction costs.

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method, except for derivatives, which are measured at fair value.

A financial liability is derecognised when the obligation under the liability is extinguished. For financial liabilities other than derivatives, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

The Company's financial liabilities are classified as follows:

- Financial liabilities held at amortised cost

The classification depends on the purpose for which the financial liabilities were acquired. Management determines the classification of its

financial liabilities at initial recognition.

(i) Financial liabilities held at amortised cost

Financial liabilities at amortised cost are included in "trade and other payables" in the statement of financial position.

Loans and borrowings are classified as current liabilities, unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Interest expense relating to the financial liability is recognised in profit or loss on a time proportion basis using the effective interest rate method.

Trade payables and other payables represent liabilities for goods and services provided to the Company prior to the end of the financial year, which are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. Trade payables approximate fair value due to their short-term nature. The amounts are unsecured and are generally paid within 30-90 days of recognition.

• Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

• Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposit with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

• Equity instruments issued

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Ordinary shares are classified as equity and recognized at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issuance of new shares are shown in the equity as a reduction from the proceeds.

• Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

• Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

• Segment reporting

Identification of segments

The Company's operating businesses are organised and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different services and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Unallocated items include general corporate expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

• Non-current assets held for sale and discontinued operations:

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits and financial assets, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

• Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023, MCA to amend the following Ind AS which are effective for annual periods beginning on or after 01 April 2023. The Company applied for the first time these amendments.

(i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company's standalone financial statements.

(ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 01 April 2022.

Apart from these, consequential amendments and editorials have been made to other Ind AS like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

• Standards notified but not yet effective

There are no standards that are notified and not yet effective as on the date.

• Climate - related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments.

Disclosure of significant accounting policies [Text Block]

• Corporate information

The financial statements of the Company for the financial year ended March 31, 2024 were authorised for issue in accordance with a resolution of the directors dated September 27, 2024.

Google India Private Limited (the “Company”) is engaged in rendering of Information Technology (IT) Services and IT enabled services (ITES) to its Group Companies engaged in the Internet Industry. The Company is also a third-party reseller of advertising space of Google AdWords program and other Google advertising products and services in India to advertisers seeking to market their products and services to consumers and business users over the Internet.

• Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards ('Ind AS') notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (“the Act”) (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The financial statements are presented in Indian rupees and all values are rounded to the nearest million, except otherwise indicated.

On December 17, 2020, the Board of Directors of the Company considered and approved the demerger of its Information Technology segment (“IT business” or “Demerged Undertaking”) of the Company on a going concern basis by way of Scheme of Arrangement (“the Scheme”). The Bengaluru Bench of the National Company Law Tribunal (“NCLT”) has approved the scheme between Google India Private Limited (“Transferor”) and Google IT Services India Private Limited (“Transferee”) and their respective shareholders and creditors, through its order dated May 25, 2023 (the “Order”). The Certified True Copy of the Order along with sanctioned Scheme was received on June 21, 2023. The Scheme became effective on June 26, 2023, upon filing of the certified copies of the NCLT Order sanctioning the Scheme, by both the companies, with the Registrar of Companies, Karnataka (“ROC”).

Considering that all necessary and substantive approvals were received, the Company had given effect to the demerger accounting from June 30, 2023 in accordance with the accounting treatment prescribed in the Scheme and relevant accounting principles.

Accounting of Demerger as per approved Scheme:

As per Clause 21.1 of the Scheme, upon the Scheme coming into effect, the transferor shall account for the demerger of the Demerged Undertaking in accordance with Indian Accounting Standards (“Ind AS”) 103 notified under Section 133 of the Act, as notified under the Companies (Indian Accounting Standard) Rules, 2015 and generally accepted accounting principles, as may be amended from time to time, in its books of accounts such that:

- All the assets and the liabilities of the demerged undertaking as appearing in the books of accounts of the Transferor shall be transferred to and vested in the Transferee pursuant to the Scheme and shall be reduced from the respective book value of assets and liabilities of the Transferor.
- Inter-company balances between the Transferor and the Transferee, if any to the extent it relates to the demerged undertaking, shall stand cancelled and there shall be no further obligation outstanding in this behalf.
- The difference between the assets and liabilities relating to the demerged undertaking transferred to the Transferee as per clause 21.1(i) of the Scheme and after making the adjustments as per clause 21.1(ii) of the Scheme, if any, shall be recognised through retained earnings of the Transferor.
- For accounting purpose, the Scheme will be given effect from the date when all substantial conditions for the transfer of business are completed,

i.e., the control is transferred in accordance with the requirements of Ind AS.

Till the date of transfer i.e June 30, 2023, the results of the Demerged Undertaking ("IT business") were reflected and presented as discontinued operations.

- Summary of material accounting policies
- Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

- Foreign currencies
- Functional and presentation currency

The financial statements of the Company's operations are measured using the currency of the primary economic environment in which the Company operates (the "functional currency").

- Transactions and balances

Transactions in currencies other than the Company's functional currency ("foreign currency") are recorded at rates of exchange which approximates the actual rates on the date of the transaction. At each reporting date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the reporting date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items and on translation of monetary items are included in profit or loss for the

financial year. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the financial year except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

- Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

- Fair value hierarchy

The Company categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 — Quoted prices (unadjusted) in active market for identical assets or liabilities that the Company can access at the measurement date,
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 — Unobservable inputs for the asset or liability

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

- Assets and liabilities measured at fair value

Management has determined that the carrying amounts of cash and cash equivalents, trade and other receivables, amounts due from/(to) related companies, and trade and other payables, based on their notional amounts, reasonably approximate their fair values because these are mostly short-term in nature.

- Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking

into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised.

- **Rendering of information technology and enabled services** Revenue from rendering of information technology and enabled services are recognised on accrual basis for services rendered and billed as per the terms of specific contracts, which is on the basis of cost expended plus an agreed profit margin.

- **Sale of advertising space, net (refer 18a)**

Revenue from sale of advertising space is billed to its customers (the advertisers) and is recognised based on display/clicks of advertisements that are placed on Google Network Members websites as per the terms of the specific contracts.

- **Sale of enterprise products, net (refer 18a)**

Revenue from sale of enterprise products (Cloud computing services such as Gmail, Google docs), billed to its customers (users), is recognised over the terms of the service agreements entered with the users.

- **Contract balances**

Contract assets

Contract assets represents service rendered for which bill is yet to be raised in terms of the agreement with respective customers.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (m) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

Contract liabilities represents advance billings to customers against which service is yet to be rendered to the customers.

- **Other income**

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other income" in the statement of profit and loss.

- **Taxes**

The tax expense for the year comprises current and deferred tax.

- **Current income tax**

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authority. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognized outside profit or loss, either in other comprehensive income or directly in equity. Current tax assets and tax liabilities are offset where the company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

• Deferred tax

Deferred tax is recognised in respect of all temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except where the deferred tax asset or liability arises from the initial recognition of an asset or liability which affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that there will be suitable future taxable profits available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets are reviewed at each reporting date and adjusted to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be utilised.

Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and laws enacted or substantively enacted at the reporting date.

Deferred tax items are recognised in correlation to the underlying transaction either in profit or loss, other comprehensive income or directly in equity.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and deferred income taxes relate to the same taxable company and the same taxation authority.

• Property, plant and equipment

Property, plant and equipment are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment are stated at cost less accumulated depreciation and impairment value, if any.

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition

of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

Subsequent expenditure is added to the carrying amount of the asset when it is probable that the future economic benefits, in excess of standard performance of the asset before the expenditure was made, will flow to the Company, and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from their use. On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to profit or loss.

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of its property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimate useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation is provided on the straight-line method over their estimated useful lives as follows:

Asset Description	Useful life as estimated by the management	Useful life as stated in the Companies Act, 2013
(in years)	(in years)	
Computer equipment	2	3
Networking equipment	3-5	6
Office equipment	3-5	5
Furniture and fixtures	5	10
Vehicles	3-5	8
Leasehold improvements	Provided over lease period or five years, whichever lower	Provided over lease period or five years, whichever lower

Assets under construction primarily relate to supplies. These are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The assets' useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

• Intangible assets (Indefeasible Right of Use – IRU)

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Indefeasible Right of Connectivity bandwidth capacities of the Company are capitalised as intangible assets. Intangible assets are stated at cost less accumulated amortisation. IRU taken by the Company are amortised over a period of five to eight years based on technical estimate of useful lives or the agreement whichever is lower.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

- Leases

The determination of whether an arrangement is, or contains a lease, is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains a lease, if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Arrangements as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the lease commencement date, less any lease incentives received; plus any initial direct costs incurred; plus an estimate of costs to be incurred by the Company in dismantling and removing the underlying asset or to restore the underlying asset or the site on which it is located.

The right-of-use asset is depreciated over the shorter of the useful life of the asset and the lease term. In addition, the right-of-use asset is periodically reduced for impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, an appropriate incremental borrowing rate, as determined by the Company.

The lease liability is subsequently measured at amortised cost using the effective interest rate method and re-measured when there is a change in future lease payments arising from a change in index or rate, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or for certain lease modifications. A corresponding adjustment will be made to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to nil.

The carrying amount of the lease liability is reduced to reflect lease payments made by the Company during the period.

Practical Expedients and Exemptions

The Company has lease agreements with lease and non-lease components. The Company has elected the practical expedient to account for lease and any associated non-lease components together as a single lease component for all classes of underlying assets.

The Company does not recognise the right-of-use asset and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

- Impairment of non-financial assets and financial assets measured at cost

The carrying amounts of the non-financial and financial assets measured at cost (property, plant and equipment, intangible assets, right-of-use assets, and others) are reviewed at each reporting date to determine whether there is any indication of impairment in value. If any such indication exists, the assets' recoverable amount is estimated.

An impairment in value is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment in value is recognised in profit or loss.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

The fair value less costs to sell is the amount obtainable from the sale of an asset or cash generating unit in an arm's length transaction between knowledgeable, willing parties, less costs of disposal.

Value in use is the present value of estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life, discounted at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash generating

unit for which the future cash flow estimates have not been adjusted.

An assessment is made at each reporting date as to whether there is any indication that an impairment in value recognised in prior periods for an asset may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated.

An impairment in value recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment in value was recognised. An impairment in value is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of any depreciation/amortisation, if no impairment in value had been recognised.

Reversals of impairment in value are recognised in profit or loss. After such a reversal, the depreciation/amortisation is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables or contract revenue receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

- Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation, and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as an interest expense.

Where the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when recovery is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

The Company's categories of provisions are detailed as follows:

- Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit plan for its employees, viz., gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Compensated absences

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

- Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions) of the ultimate holding Company – Alphabet Inc.,

Equity-settled transactions

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted and is recognised as an expense over the vesting period, which ends on the date on which the relevant employees become fully entitled to the award.

Restricted share units (“RSUs”) are measured based on the fair market values of the underlying share on the dates of grant.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company’s best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

The Company is required to estimate the expected forfeiture rate (based on historical experience) and only recognise an expense for those shares expected to vest. To the extent the actual forfeiture rate is different from the estimate; the share-based payment is adjusted prospectively. The movement in cumulative expense since the previous balance sheet date is recognised in the Statement of Profit or Loss and Other Comprehensive Income, with a corresponding entry in equity (“Other equity reserves” account).

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company’s best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Cash-settled transactions

The Company does not have share-based payment resulting from cash-settled transactions.

- Financial assets

Financial assets are recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss ("FVTPL"), directly attributable transaction costs.

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired or has been transferred and the Company has transferred substantially all risks and rewards of ownership.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that has been recognised directly in equity is recognised in profit or loss.

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e. the date that the Company commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

Classification and measurement

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ("FVTOCI"), or FVTPL), and
- those to be measured at amortised cost.

A financial asset is measured at amortised cost if it has not been designated as FVTPL and meets both of the following conditions:

- it is held within a business model whose objective is to hold to collect contractual cash flow; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is measured at FVTOCI if it has not been designated as FVTPL and meets both of the following conditions:

- it is held within a business model whose objective is both to hold to collect contractual cash flow and sell financial assets and;
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. All the Company's debt instruments are measured at amortised cost as the assets that are held for collection of contractual cash flows

where those cash flows represent solely payments of principal and interest are measured at amortised cost.

A gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

The Company's debt instruments consist of the following:

- Loans
- Debt securities
- Deposits
- Trade receivables
- Bank balances

Impairment of debt instruments measured at amortised cost

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18.

For trade receivables, including intercompany trade receivables, the company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics. The Company uses judgement in making assumptions around the risk of default and expected loss rates, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

For loans owed from related parties, the Company applies the general approach to providing for expected credit losses, as prescribed by Ind AS 109. The general expected credit loss model under Ind AS 109, requires the calculation of '12 month expected credit losses' (losses based on defaults which are possible within 12 months of the reporting date) for financial assets, unless the asset at the reporting date is not considered to be 'low credit risk' and is deemed to have had a 'significant increase in credit risk' since initial recognition, in which case lifetime expected credit losses should be recorded.

Management consider amounts due from related parties to have 'low credit risk' when they have a low risk of default and the issuer has a strong capacity to meet its contractual cash flow obligations in the short term.

Deposits represent payments made to landlords as security for leased premises and are initially measured at the consideration paid to the lessor less loss allowance. Subsequently deposits are measured at amortised cost using the effective interest rate method. For deposits the Company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the deposits.

Deposits are presumed to be fully recoverable, where:

- the Company remains in the leased property and is within the period of existing leasing terms,
- there is no indication that there has been damage to the premises, or a breach of contract has occurred, that would suggest a lease deposit balance would not be received in full, and
- the Company is up to date with all its lease payments and is meeting any other contractual commitments required in the lease contract.

An expected credit loss will be calculated when the Company has exited the lease and the balance has become aged or any of the criteria above have not been met. Expected credit loss calculations for lease deposit balances will be made on a lease by lease basis and will factor in the following:

- ageing of lease balance outstanding,
- past precedent and historic trends in successfully recouping lease balances, and
- general market conditions in relation to the rental sector.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

• Financial liabilities

Financial liabilities are recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the financial instrument.

Financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities other than derivatives, directly attributable transaction costs.

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method, except for derivatives, which are measured at fair value.

A financial liability is derecognised when the obligation under the liability is extinguished. For financial liabilities other than derivatives, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

The Company's financial liabilities are classified as follows:

- Financial liabilities held at amortised cost

The classification depends on the purpose for which the financial liabilities were acquired. Management determines the classification of its

financial liabilities at initial recognition.

(i) Financial liabilities held at amortised cost

Financial liabilities at amortised cost are included in "trade and other payables" in the statement of financial position.

Loans and borrowings are classified as current liabilities, unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Interest expense relating to the financial liability is recognised in profit or loss on a time proportion basis using the effective interest rate method.

Trade payables and other payables represent liabilities for goods and services provided to the Company prior to the end of the financial year, which are unpaid and arise when the Company becomes obliged to make future payments in respect of the purchase of these goods and services. Trade payables approximate fair value due to their short-term nature. The amounts are unsecured and are generally paid within 30-90 days of recognition.

• Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

• Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposit with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

• Equity instruments issued

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Ordinary shares are classified as equity and recognized at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issuance of new shares are shown in the equity as a reduction from the proceeds.

• Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

• Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

• Segment reporting

Identification of segments

The Company's operating businesses are organised and managed separately according to the nature of services provided, with each segment representing a strategic business unit that offers different services and serves different markets. The analysis of geographical segments is based on the areas in which major operating divisions of the Company operate.

Allocation of common costs

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items

Unallocated items include general corporate expense items which are not allocated to any business segment.

Segment accounting policies

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

• Non-current assets held for sale and discontinued operations:

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits and financial assets, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

• Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023, MCA to amend the following Ind AS which are effective for annual periods beginning on or after 01 April 2023. The Company applied for the first time these amendments.

(i) Definition of Accounting Estimates - Amendments to Ind AS 8

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Company's standalone financial statements.

(ii) Disclosure of Accounting Policies - Amendments to Ind AS 1

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments have had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

(iii) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 01 April 2022.

Apart from these, consequential amendments and editorials have been made to other Ind AS like Ind AS 101, Ind AS 102, Ind AS 103, Ind AS 107, Ind AS 109, Ind AS 115 and Ind AS 34.

• Standards notified but not yet effective

There are no standards that are notified and not yet effective as on the date.

• Climate - related matters

The Company considers climate-related matters in estimates and assumptions, where appropriate. This assessment includes a wide range of possible impacts on the Company due to both physical and transition risks. Even though climate-related risks might not currently have a significant impact on measurement, the Company is closely monitoring relevant changes and developments.

[610300] Notes - Accounting policies, changes in accounting estimates and errors

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2023 to 31/03/2024	01/04/2022 to 31/03/2023
Disclosure of changes in accounting policies, accounting estimates and errors [TextBlock]		
Disclosure of initial application of standards or interpretations [TextBlock]		
Whether initial application of an Ind AS has an effect on the current period or any prior period	No	No
Disclosure of voluntary change in accounting policy [TextBlock]		
Whether there is any voluntary change in accounting policy	No	No
Disclosure of changes in accounting estimates [TextBlock]		
Whether there are changes in accounting estimates during the year	No	No

[400600] Notes - Property, plant and equipment**Disclosure of additional information about property plant and equipment [Table]**

[400700] Notes - Investment property

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2023 to 31/03/2024	01/04/2022 to 31/03/2023
Disclosure of investment property [TextBlock]		
Depreciation method, investment property, cost model	Textual information (34) [See below]	Textual information (35) [See below]
Useful lives or depreciation rates, investment property, cost model	Textual information (36) [See below]	Textual information (37) [See below]

Textual information (34)**Depreciation method, investment property, cost model**

Property, plant and equipment are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment are stated at cost less accumulated depreciation and impairment value, if any. The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment. Subsequent expenditure is added to the carrying amount of the asset when it is probable that the future economic benefits, in excess of standard performance of the asset before the expenditure was made, will flow to the Company, and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred. Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from their use. On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to profit or loss.

Textual information (35)**Depreciation method, investment property, cost model**

Property, plant and equipment are initially recorded at cost. Subsequent to initial recognition, property, plant and equipment are stated at cost less accumulated depreciation and impairment value, if any. The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment. Subsequent expenditure is added to the carrying amount of the asset when it is probable that the future economic benefits, in excess of standard performance of the asset before the expenditure was made, will flow to the Company, and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred. Property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from their use. On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is taken to profit or loss.

Textual information (36)**Useful lives or depreciation rates, investment property, cost model**

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of its property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimate useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. Depreciation is provided on the straight-line method over their estimated useful lives as follows:

Asset Description	Useful life as estimated by the management
Computer equipment	2-3 years
Networking equipment	3-5 years
Office equipment	3-5 years
Furniture and fixtures	5-10 years
Vehicles	3-5 years
Leasehold improvements	Provided over lease period or five years, whichever lower

Assets under construction primarily relate to supplies. These are not depreciated as these assets are not yet available for use. The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The assets' useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

Textual information (37)

Useful lives or depreciation rates, investment property, cost model

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of its property, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimate useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. Depreciation is provided on the straight-line method over their estimated useful lives as follows:

Asset Description	Useful life as estimated by the management	Useful life as stated in the Companies Act, 2013 (in years)
Computer equipment	2-3	3-5
Networking equipment	3-5	3-5
Office equipment	3-5	3-5
Furniture and fixtures	5-10	5-10
Vehicles	3-5	3-5

Leasehold improvements Provided over lease period or five years, whichever lower
 Assets under construction primarily relate to supplies. These are not depreciated as these assets are not yet available for use. Disclosure of additional balance sheet notes explanatory [Text Block]

- Earnings per equity share:

The following reflects the income and share data used in the basic and diluted EPS computations:

Profit for the year attributable to the shareholders from continuing operations

Profit for the year attributable to the shareholders from discontinued operations

Weighted average number of equity shares considered for
calculation of basic earnings per share

Weighted average number of equity shares considered for
calculation of diluted earnings per share

Nominal value of shares in Rs.

Earnings per share for continuing operations

- Basic (in Rs.)

- Diluted (in Rs.)

Earnings per share for discontinued operations

- Basic (in Rs.)

- Diluted (in Rs.)

Earnings per share for continuing and discontinued operations

- Basic (in Rs.)

- Diluted (in Rs.)

- Leases

Effective April 01, 2019, the Company adopted Ind AS 116, using the modified retrospective approach by recording the cumulative effect of initial application as an adjustment to opening retained earnings. Accordingly, the Company has recognised lease liabilities of Rs. 2,637 and right-of-use assets of Rs. 2,637, as at April 01, 2019.

The Company has entered into contracts for various leases involving buildings with lease terms between 1 to 10 years. The Company also elected to use the recognition exemption for lease contract that, at the commencement date, has a lease term of 12 months or less and do not contain a purchase option ("short term lease").

Below are the carrying amounts of right-of-use assets recognised and the movements during the year:

Particulars	March 31, 2024	March 31, 2023
Balance at the beginning of the year	19,780	3,754
Additions and modifications	374	18,052
Disposals/terminations	-	-
Amortisation of right-of-use assets (refer note 22 and note 41)	(3,315)	(2,026)
Balance at the end of the year	16,839	19,780

Below are the carrying amounts of lease liabilities and the movements during the year:

Particulars	March 31, 2024	March 31, 2023
Balance at the beginning of the year	20,023	4,057
Additions and modifications	345	18,066
Interest on lease liabilities (refer note 21)	1,455	740
Disposals/terminations	-	-
Payments	(3,710)	(2,840)
Balance at the end of the year	18,113	20,023

The break-up of current and non-current lease liabilities is as follows:

	March 31, 2024	March 31, 2023
Current	2,560	2,936
Non-current	15,553	17,087
Balance at the end of the year	18,113	20,023

The effective interest rate for lease liabilities ranges between 5.11 % to 8.31%, with maturity between 2024-2031
(31 March 2023: 4.37% to 8.31 %, with maturity between 2023-2031)

The following are the amounts recognised in the statement of profit and loss:

Particulars	For the year ended March 31, 2024	For the year ended March 31, 2023
Amortisation of Right-of-use assets (refer note 22 and 41)	975	978
Interest on lease liabilities (refer note 21)	428	357
Rent (refer note 23)	66	128
Total	1,469	1,463

The Company had total cash outflows for leases of Rs. 3,710 in March 31, 2024 (Rs. 2,840 in March 31, 2023).

The table below provides details regarding contractual maturities of lease liabilities on an undiscounted basis:

Particulars	For the year ended March 31, 2024	For the year ended March 31, 2023
Less than one year	3,876	4,920
One to three years	7,104	7,418
More than 3 years	12,315	15,544
Total	23,295	27,882

The Company does not face a liquidity risk with regard to its lease liabilities, as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

• Commitments and contingencies

- Capital and other commitments

	March 31, 2024	March 31, 2023
Estimated amount of contracts remaining to be executed on capital account and not provided for	10,305	9,724

The above disclosures represent figures for both continuing and discontinuing operations.

- Contingent liabilities

	March 31, 2024	March 31, 2023
Claims against the Company not acknowledged as debts		

A. Direct taxes for the assessment orders received

• Transfer pricing adjustment and export benefit	-	-
• Corporate tax assessments	1,158	2,081
• Withholding tax proceedings	-	-

- Indirect taxes

Demand/ show cause notices issued by service tax authorities pertaining to

• irregular availment and utilization of CENVAT credit	531	531
• Non-payment of service tax under reverse charge mechanism	5,292	4,815

C. Others

Penalty for delay in foreign currency remittances	55	55
---	----	----

The Company is contesting the aforesaid demands raised by the respective tax authorities and based on its internal assessment/ advice from an expert, the management is confident that its position will likely be upheld in the appellate process. The Company has received favourable orders relating to income tax litigations of past years from statutory authorities, though the same may be challenged before higher authorities by Revenue. No tax expense has been accrued in the financial statements for the tax demand raised as above. Management believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's financial position and results of operations.

The above disclosures represent figures for both continuing and discontinuing operations.

- Share based payments

The Company has adopted the 2004 Stock Option Plan ("the Plan") of Alphabet Inc., USA, ultimate holding Company (formerly Google Inc., USA). Under the Plan, the employees of the Company may be granted options and restricted stock units (RSUs) of Alphabet Inc., in accordance with the terms and conditions as specified in the Plan. The Plan is assessed, managed and administered by Alphabet Inc. Options and RSUs granted to participants under the Stock Plan generally vest over four years contingent upon employment or service with us on the vesting date.

The fair value of options granted is estimated at the date of grant using a Black-Scholes-Merton pricing model, taking

into account the terms and conditions upon which the share options were granted. This model takes into consideration the following inputs that are required to compute the fair value of a stock option: 1) the exercise price

of the option; 2) the fair market value of the underlying share; 3) the expected term of the option; 4) the expected volatility of the price of the underlying share; 5) the expected dividend yield of the underlying share; and 6) the risk-

free interest rate over the expected term of the option. There are no cash settlement for equity awards.

RSU awards are granted with no exercise price, and as such the fair value is equal to the market value of the stock on the date of grant and no valuation model is necessary.

The fair value of the unvested portion of share-based payments granted is recognised over the remaining service period using the graded vesting (accelerated expense attribution method), net of estimated forfeitures. In determining whether an award is expected to vest, the Company uses an estimated, forward-looking forfeiture rate based upon historical forfeiture rates. Stock-based compensation expense recorded using an estimated forfeiture rate is updated for actual forfeitures annually. The expected life input is based on historical exercise patterns and post vesting termination behaviour. The risk-free interest rate input is based on United States Treasury yield curve in effect at the grant date. An annualised dividend yield set to zero as no dividends are expected.

The expense recognised for equity awards received during the year is shown in the following table:

	For the year ended March 31, 2024	For the year ended March 31, 2023
Expense arising from equity-settled share-based payment transactions	7,507	14,290

The Company and Google LLC has entered into reimbursement agreement to give shares of Alphabet Inc., (the ultimate holding company) to the employees of the Company and cross charged by Google LLC, under employee equity incentives scheme w.e.f. April 01, 2016 ("Agreement"). Based on such Agreement, Google LLC, will cross charge the Company the actual amount of expense incurred towards stock-based expense in connection with equity awards granted to the employees of the Company.

Accordingly, as at March 31, 2024, the Company has recorded a liability towards such charge amounting to Rs. 7,507 (March 31, 2023: Rs 14,290) on an accrual basis.

The following table reflects the number and weighted average exercise prices (WAEP) of, and movements in, equity awards during the years:

Restricted stock units	March 31, 2024		March 31, 2023	
	No. of shares	Weighted average exercise prices (Rs.)	No. of shares	Weighted average exercise price (Rs.)
RSUs outstanding beginning of the year	4,989,565	8,305	5,446,900	7,626
Transfer out pursuant to the Scheme	(3,262,871)	9,096	-	-
Granted during the year	495,502	11,097	2,409,214	7,532
Vested during the year	(636,843)	8,384	(1,971,186)	7,552
Forfeited	(193,357)	9,074	(226,043)	8,151
Transfer out to other group companies (net) *	(37,459)	8,796	(669,320)	7,160
RSUs outstanding as at balance sheet date	1,354,537	9,496	4,989,565	8,305
RSUs exercisable outstanding as at balance sheet date	1,269,622	9,496	4,693,185	8,305

* pertains to awards of employees, transferred between the Company and other group companies.

The above disclosures represent figures for both continuing and discontinuing operations.

• Employee benefits

• Disclosures related to defined benefit plan

The Company has an unfunded defined benefit gratuity plan and governed by Payment of Gratuity Act, 1972. Under this plan, every employee who has completed at least five years of service is entitled to a gratuity on departure at 15 days salary for each completed year of service. The following tables summarise net benefit expenses recognised in the statement of profit and loss and the amount recognised in the Balance sheet for the gratuity plan:

	For the year ended March 31, 2024	For the year ended March 31, 2023
Current service cost	308	514
Interest cost on benefit obligation	110	130
Net employee benefit expenses	418	644

B) Amount recognised in the Balance sheet

	March 31, 2024	March 31, 2023
Defined benefit obligation	1,429	2,253
Plan liability	1,429	2,253

	March 31, 2024	March 31, 2023
Opening defined benefit obligation	2,253	1,764
Current service cost	308	514
Interest cost	110	130
Transfer of liability pursuant to the Scheme	(983)	-

Transfer out of liability	(27)	(81)
Benefits paid	(128)	(144)
Re-measurement gain/(losses) on employee defined benefit plan recognised under other comprehensive income	(104)	70
Closing defined benefit obligation	1,429	2,253

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

	March 31, 2024	March 31, 2023
Discount rate	7.20%	7.50%
Salary rise	10%	10%
Mortality rate	Indian Assured Lives Mortality (2006-2008) Ultimate	Indian Assured Lives Mortality (2006-2008) Ultimate
Retirement age	60	60
Attrition rate	1% to 15%	1% to 15%

Note: The estimates of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Sensitivity analysis

A quantitative sensitivity analysis for significant assumption is as shown below:

	March 31, 2024	March 31, 2023
(a) Effect of 50 basis points change in assumed discount rate on defined benefit obligation		
- 50 basis points increase	(76)	(141)

- 50 basis points decrease	129	156
----------------------------	-----	-----

(b) Effect of 50 basis points change in assumed salary escalation rate on defined benefit obligation

- 50 basis points increase	122	147
- 50 basis points decrease	(71)	(135)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit plan obligation at the end of the reporting period is 15 years (March 31, 2023: 15 years).

Expected benefit payments for the year

	March 31, 2024	March 31, 2023
Pay-outs		
Year 1	48	223
Year 2	60	74
Year 3	65	107
Year 4	91	144
Year 5	113	206
beyond 5 years	783	1,488

B. Disclosure relating to compensated absences

The liability for cost of compensated absences is Rs. 792 (March 31, 2023: Rs. 1,605) has been actuarially determined and provided for in the books.

• Defined contribution plan

	For the year ended March 31, 2024	For the year ended March 31, 2023
Amount recognised in the statement of profit and loss towards Provident fund	664	1,150

The above disclosures represent figures for both continuing and discontinuing operations.

- Details of dues to micro and small enterprises as defined under MSMED Act, 2006

	March 31, 2024	March 31, 2023
The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of each accounting year*	27	11
The amount of interest paid by the buyer in terms of section 16, of the Micro Small and Medium Enterprise Development Act, 2006 along with the amounts of the payment made to the supplier beyond the appointed day during each accounting year	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under Micro Small and Medium Enterprise Development Act, 2006.	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	-	-
The amount of further interest remaining due and payable in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprises for the purpose of disallowance as a deductible expenditure under section 23 of the Micro, Small and Medium Enterprise Development Act, 2006.	-	-

*includes trade payable Rs. 27 (March 31, 2023: Rs. 6) and Capital creditors Rs. Nil (March 31, 2023: Rs. 5).

** Amount reduced by additional income amounting to Rs. 2,108 pursuant to BAPA entered during the year, refer note 18a and 18b.

^ Amount reduced by additional income amounting to Rs. 189 pursuant to BAPA entered during the year, refer note 18a and 18b.

- Fair values
- Category-wise Classification of financial instruments

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments

	Carrying value		Fair value	
	March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Financial assets				
Valued at amortized cost				
Trade receivables	68,412	58,153	68,412	58,153
Loans (Current and Non-current)	39,338	13,041	39,338	13,041
Cash and cash equivalents	57,135	55,033	57,135	55,033
Other financial assets	5,752	5,926	5,752	5,926
	170,637	132,153	170,637	132,153
Financial liabilities				
Trade payables	91,541	74,084	91,541	74,084
Lease liabilities	18,113	20,023	18,113	20,023
Other financial liabilities	29,137	2,437	29,137	2,437
	138,791	96,544	138,791	96,544

The management assessed that cash and cash equivalents, loans, trade receivables, trade payables, lease liabilities, other financial assets and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Quantitative disclosures fair value measurement hierarchy for liabilities as at March 31, 2024:

	Fair value measurement using			
	Total	Level 1	Level 2	Level 3
Financial assets				
Trade receivables	68,412	-	-	68,412
Loans (Current and Non-current)	39,338	-	-	39,338
Cash and cash equivalents	57,135	-	-	57,135

Other financial liabilities	2,437	-	-	2,437
	96,544	-	-	96,544

• Financial risk management objectives and policies

Financial risk management framework

The Company is exposed primarily to Market risk (fluctuations in foreign currency exchange rates), Credit risk and Liquidity risk, which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company.

i. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, credit, liquidity and other market changes.

ii. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to its operating activities when revenue or expense is denominated in a foreign currency.

Details of unhedged foreign currency exposure:

The year-end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are as under:

	Foreign currency	Amount in foreign currency (USD in millions)	Amount	Conversion rate
Trade payables				
March 31, 2024	USD	7	556	83.37
March 31, 2023	USD	5	373	82.22

Foreign currency sensitivity:

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

	Change in rate		Effect on profit before tax	Effect on pre-tax equity		
	Increase	Decrease	Increase/ (Decrease)	Increase/ (Decrease)		
March 31, 2024						
USD	1%	1%	(5.56)	5.56	(5.56)	5.56
March 31, 2023						
USD	1%	1%	(3.73)	3.73	(3.73)	3.73

iii. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instrument.

Trade receivables

The Company has adopted a policy of only dealing with counterparties that have sufficiently high credit rating. The Company's exposure and credit ratings of its counterparties are continuously monitored, and the aggregate value of transactions is reasonably spread amongst the counterparties.

The average credit period on sales of services is in the range of 30-60 days. Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on a detailed study of credit worthiness and accordingly individual credit limits are defined/modified. The concentration of credit risk is limited due to the fact that the customer base is large. There is no customer (apart from the Group companies) representing more than 10% of the total balance of trade receivables.

Reconciliation of expected credit loss - trade receivables

Particulars	Amount
Expected credit loss on April 01, 2022	(906)
Changes in loss allowance	(895)
Expected credit loss on March 31, 2023	(1,801)
Changes in loss allowance	434
Expected credit loss on March 31, 2024	(1,367)

The Company uses a provision matrix to determine the expected credit loss on the portfolio of its trade receivables and contract assets. The provision matrix is based on its historically observed default rates over the expected life of

the trade receivables and contract assets and is adjusted for forward looking estimates. The expected credit loss allowance is based on the ageing of the days the receivables are due in the provision matrix. Set out below is the information about the credit risk exposure of the Company's trade receivables using provision matrix:

	Not past due	0-180 days due past due date	More than 180 days past due date	Gross trade receivables
March 31, 2024	65,938	3,054	787	69,779
March 31, 2023	56,008	1,937	2,009	59,954

iv. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities that are settled by delivering cash or another financial asset as they fall due. The Company is exposed to this risk from its operating activities and financing activities. The Company's approach to managing liquidity is to ensure, as far as possible that it will have sufficient liquidity to meet its liquidity when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below provides details regarding the contractual maturities of significant financial liabilities (excluding lease liabilities) as at March 31, 2024 and March 31, 2023:

Upto 1 year	1 to 3 years	> 3 years	Total
-------------	--------------	-----------	-------

March 31, 2024

Trade payables	91,463	78	-	91,541
Other financial liabilities	29,137	-	-	29,137
	120,600	78	-	120,678

March 31, 2023

Trade payables	74,019	65	-	74,084
Other financial liabilities	2,437	-	-	2,437
	76,516	65	-	76,581

• Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

• Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

Lease commitments - the Company as lessee

The Company has lease contracts for office premises used in its operations. Leases of such premises generally have lease terms between 1 and 10 years. There are several lease contracts that include extension and termination options and variable lease payments. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Revenue – Principal versus Agent Consideration

The Company evaluates itself as a principal or agent in its transactions relating to the sale of products based on the following factors:

- The Company is primarily responsible for fulfilling the promise to provide the specified good or service.
- The Company has discretion in establishing the price for the specified good or service.

• Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company bases its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

• Taxes

Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

- Defined Benefit Plan (Gratuity)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit plan is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit plan.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries. Further details about gratuity obligations are given in note 30.

- Depreciation on property, plant and equipment

Depreciation on property, plant and equipment is calculated on a straight-line basis using the rates arrived at based on the useful lives and residual values of all its property, plant and equipment estimated by the management. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of property, plant and equipment, though these rates in certain cases are different from lives prescribed under Schedule II of the Companies Act, 2013.

- Leases – estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

- Provision for expected credit losses of trade receivables and contract assets

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

- Segment information

The Company organises the business into following reportable segments, which are determined based on the nature of the services offered by the Company considering the inter-relationship of the business activities. The Company's operating decision maker (CODM) is the Board of

Directors of the Company which regularly reviews the financial performance of the each of the segments and Company's results.

Reportable Segment	Services
Sale of advertising space & enterprise sales	Reseller of advertising space of Google AdWords program and other Google advertising products and services in India to advertisers over the Internet. Reseller for sale of Google Enterprise products for onward sales to customers.

IT# Internet Technology (IT) services to its group companies engaged in Internet industry.

ITES IT enabled services to its group companies engaged in Internet industry.

Closing balance	5	252

• Transfer Pricing

The Company has undertaken necessary steps to comply with the transfer pricing regulations. The Management is of the opinion that the international transactions are at arm's length and hence the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

• Ratio analysis and its elements

(4) Total sales - sales return

(5) Current assets - current liabilities

(6) Tangible net worth + total debts + deferred tax liability

(7) Purchase of advertising space and purchase of services relating to enterprise products

• Other statutory information

• The Company has not received any fund from any person(s) or entity(ies), including foreign entities (“Funding party”) with the understanding (whether recorded in writing or otherwise) that the Company shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding party (ultimate beneficiaries); or provide any guarantee, security or the like on behalf of the ultimate beneficiaries.

• The Company has not advanced or loaned or invested funds (either borrowed funds or share premium or any other sources or kind of funds) to any other person or entity, including foreign entities (“Intermediaries”) with the understanding (whether recorded in writing or otherwise) that the Intermediary shall, whether, directly or indirectly lend or invest in other persons/ entities identified in any manner whatsoever by or on behalf of the Company (‘ultimate beneficiaries’) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- The Company evaluated all events and transactions that occurred after March 31, 2024 through September 26, 2024; the date the financial statements are issued. Based on the evaluation the Company is not aware of any other events or transactions that to require recognition or disclosure in financial statements.
- There are no transactions with struck off companies under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956.
- The Company is maintaining its books of account in electronic mode and these books of account are accessible in India at all times. The Company has maintained daily backup of books of accounts on servers located in India except that in respect of the accounting software, backup of books of accounts is maintained on a periodic basis on servers located outside India for the period of April 1, 2023 to August 13, 2023.

The Company has used payroll software which is operated by a third-party software service provider and accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that in respect of accounting software, audit trail feature is not enabled for certain changes made using privileged/ administrative access rights to the application and direct changes at the database level when using certain access rights. Further no instance of audit trail feature being tampered with was noted in respect of accounting software and payroll software where the audit trail has been enabled.

- The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified and the final rules/interpretation have not yet been issued. The Company will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

[611800] Notes - Revenue

Unless otherwise specified, all monetary values are in Millions of INR

	01/04/2023 to 31/03/2024
Disclosure of revenue [TextBlock]	Textual information (39) [See below]

Textual information (39)

Disclosure of revenue [Text Block]

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised.

- **Rendering of information technology and enabled services** Revenue from rendering of information technology and enabled services are recognised on accrual basis for services rendered and billed as per the terms of specific contracts, which is on the basis of cost expended plus an agreed profit margin.

- **Sale of advertising space, net (refer 18a)**

Revenue from sale of advertising space is billed to its customers (the advertisers) and is recognised based on display/clicks of advertisements that are placed on Google Network Members websites as per the terms of the specific contracts.

- **Sale of enterprise products, net (refer 18a)**

Revenue from sale of enterprise products (Cloud computing services such as Gmail, Google docs), billed to its customers (users), is recognised over the terms of the service agreements entered with the users.

- **Contract balances**

Contract assets

Contract assets represents service rendered for which bill is yet to be raised in terms of the agreement with respective customers.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (m) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

Contract liabilities represents advance billings to customers against which service is yet to be rendered to the customers.

- **Other income**

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "Other income" in the statement of profit and loss.

Textual information (40)

Disclosure of employee benefits [Text Block]

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit plan for its employees, viz., gratuity. The cost of providing benefits under this plan is determined on the basis of actuarial valuation at each year-end.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Compensated absences

Accumulated leave, which is expected to be utilized within the next twelve months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

- Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions) of the ultimate holding Company – Alphabet Inc.,

Equity-settled transactions

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted and is recognised as an expense over the vesting period, which ends on the date on which the relevant employees become fully entitled to the award.

Restricted share units (“RSUs”) are measured based on the fair market values of the underlying share on the dates of grant.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company’s best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

The Company is required to estimate the expected forfeiture rate (based on historical experience) and only recognise an expense for those shares expected to vest. To the extent the actual forfeiture rate is different from the estimate; the share-based payment is adjusted prospectively. The movement in cumulative expense since the previous balance sheet date is recognised in the Statement of Profit or Loss and Other Comprehensive Income, with a corresponding entry in equity (“Other equity reserves” account).

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company’s best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Cash-settled transactions

The Company does not have share-based payment resulting from cash-settled transactions

Textual information (41)

Additional information on profit and loss account explanatory [Text Block]

18. Revenue from operations (net)

March 31, 2024 March 31, 2023

Disaggregated revenue information

Rendering of information technology enabled services (refer note 32) 23,896 20,704

Net sale of advertising space (refer note 18a, note 18b and note 25a) * 29,542 23,231

Net sale of enterprise products (refer note 18a, note 18b and note 25a) ** 1,743 1,112

55,181 45,047

* Includes Rs. 2108 (March 31, 2023: Nil) on account of adjustment pursuant to the Bilateral Advance Pricing Agreement entered during the year, refer note 18a for details.

** Includes Rs. 189 (March 31, 2023: Nil) on account of adjustment pursuant to the Bilateral Advance Pricing Agreement entered during the year, refer note 18a for details.

18a. In March 2024, the Company entered into a Bilateral Advance Pricing Agreement ('BAPA') with Central Board of Direct Taxes ('CBDT') under Section 92CC of the Income Tax Act, 1961 ('the Act') covering transactions pertaining to purchase of advertisement space and enterprise products from Google Asia Pacific Pte. Ltd. (GAP). Under the terms of the BAPA, the Company has agreed to the Arm's length Price in relation to the purchase of advertisement space and enterprise products from GAP for FY (s) 2016-17 to 2024-25.

Pursuant to the BAPA in relation to the aforesaid transactions, the Company has recognised the additional income of Rs. 2,297 for FY (s) 2016-17 to 2022-23, under the head Revenue from operations (net) in its financial statement for the year ended March 31, 2024. The additional income of Rs. 2,297 has been offered to tax by the Company.

18b. Revenue from contracts with customers

The Company reported revenue from sale of advertising space and enterprise products and associated direct cost of sales on a net basis. The table below provides a reconciliation between gross amounts from advertisers and others with the reseller revenue reported above:

March 31, 2024 March 31, 2023

Gross sales from the sale of advertisement space 312,212 280,405

Less: Purchase of advertisement space (284,778) (257,174)

Net sale of advertising space 27,434 23,231

Gross sales from the sale of enterprise products 15,519 11,525

Less: Purchase of services relating to enterprise products (13,965) (10,413)

Net sale of enterprise products 1,554 1,112

b) Trade receivables and contract balances

March 31, 2024 March 31, 2023

Trade receivables 68,412 58,153

Contract liabilities 11,246 9,684

Trade receivables are non-interest bearing and are generally on terms of 0 to 90 days. As at March 31, 2024, Rs. 1,367 (March 31, 2023: Rs. 1,801) was recognised as allowance for expected credit loss.

Contract assets represents service rendered for which bill is yet to be raised in terms of the agreement with respective customers.

Contract liabilities represents advance billings to customers against which service is yet to be rendered to customers. During the year ended March 31, 2024, the Company recognised revenue of Rs. 9,684 arising from advance from customers as at March 31, 2023. During the year ended March 31, 2023, the Company recognised revenue of Rs. 1,254 arising from advance from customers as at March 31, 2022.
